This book steers buyers through the the confusion and anxiety of new and used vehicle purchases unlike any other car-and-truck book on the market. "Dr. Phil," Canada's best-known automotive expert for more than forty-five years, pulls no punches.

Thoroughly revised and updated for 2002, the guide that has helped thousands of car and truck buyers choose the right vehicle is now better than ever. Includes full-color photos plus easy-to-read comparison charts, graphs, and specifications.

From ivory towers to fields of flowers, Meant To Be is the remarkable true story of a professional scientist who overcomes the difficulties in her life with the help of faith, and the benevolent Creator God. This is the twelve-year spiritual awakening of a disheartened scientist who renounces the world of left-brain logic to find truth that is stranger than fiction: coincidences, angelic guidance, and spiritual capabilities known as the "clairs." McLaren walked away from an unfulfilling life with a burning, unanswered question—is there proof of God? God responded resoundingly in the affirmative. McLaren takes readers into a world of magic and mystery, and the inevitable conclusion she found there: that with faith, a child's mind, and a sense of fun, a joyous and meaningful life is available for the asking. With equal measures of humour, awe, and gratitude, the author provides an earnest account of the search for a better life. Readers will come away with the tools and knowledge necessary to begin their own dialogue into what is possible when you follow a divine mission.

Reviews of more than two hundred automobiles, four-wheel drive vehicles, and compact vans are accompanied by specification data, the latest prices, and recommendations, as well as lists of warranties, and tips on financing and insurance.

Offers standard prices for cars, pickups, sport utilities, and vans, as well as detailed model histories, certified used vehicle information, and buying advice.

Introduction -- Fuel Cell Industry Overview -- Market Figures and Forecasts to 2010 -- Market and Application Analysis -- Fuel Cell Technology Review -- Profiles of Fuel Cell Equipment and Component Manufacturers -- Directory of Companies/Organisations.

Today's dynamic and uncertain environment has contributed to the changing nature of markets. In order for companies to keep up, they will need to embark on new wave marketing to ride the wave of opportunities provided by the changes in the environment, such as the digital revolution.This is critical all over the world, but none more so than in Asia. Asia is not only the world's biggest market, but also the fastest growing. It is therefore essential for marketers to understand the dynamics of Asian companies and what they have to offer to the wider world. This book analyzes competitive companies from 18 Asian countries that have successfully practiced new wave marketing and in so doing, provide invaluable lessons that others may find useful. Comprehensive case studies are used not only to describe how some of Asia's best companies compete, but also to analyze the concepts of new wave marketing their actions are based on. This book is unique in its depth and breadth of cases, from companies in the ASEAN region to North-east Asia, including Mongolia and SAARC.The authors of this book, Professor Philip Kotler, arguably the Father of Modern Marketing, Hermawan Kartajaya from Indonesia, and Hooi Den Huan from Singapore, are all experts in their field and have previously produced other bestsellers. This book, with its focus on real life examples of competitive Asian companies in the age of digitalization, complements the principles and theoretical frameworks of new wave marketing that are detailed in its sister book, Marketing for Competitiveness. Together, these books provide a comprehensive picture of the changing Asian marketing landscape.
