The famous 1962 Port Huron Statement by the Students for a Democratic Society (SDS) introduced the concept of participatory democracy to popular discourse and practice. In *Inspiring Participatory Democracy* Tom Hayden, one of the principal architects of the statement, analyses its historical impact and relevance to today's movements. *Inspiring Participatory Democracy* includes the full transcript of the Port Huron statement and shows how it played an important role in the movements for black civil rights, against the Vietnam war and for the Freedom of Information Act. Published during the year of Port Huron's 50th anniversary, *Inspiring*

Brianna can see her future, but it's the past that haunts her. Plans laid in place centuries ago are threatening not only her and her sister, but all of the Seven Lines. As the shadows plot their way to old rule, the visions shift again. Her power has led to some hard choices—and the occasional stab wound—but this set of futures holds nothing but darkness. Unable to bear the idea of losing the footing they've so recently gained, she turns the soldiers of the Seven. But with shadows

In *Learning with Information Systems* the author takes the developing world as the context and through a series of case studies develops a commonly used systems analysis methodology. He demonstrates how this methodology can evolve and adapt as new ideas become prominent. Issues of sustainability of information systems, participation in systems design and user ownership of systems are all examined. This book does not attempt to be prescriptive for all contexts nor does it focus on any particular technology. It addresses the essential questions and promises practical approaches which will
