A Place of Greater Safety by Hilary Mantel

As 19th-century novelists Alexandre Dumas and Charles Dickens both discovered, the French Revolution makes for great drama. This lesson has not been lost on Hilary Mantel, whose A Place of Greater Safety brings a 20th-century sensibility to the stirring events of 1789. Mantel's approach is nothing if not ambitious: her three main characters, Georges-Jacques Danton, Maximilien Robespierre, and Camille Desmoulins, happen to have been major players in the early days of the revolution--men whose ...

Her A Place of Greater Safety (1992) is the most compelling historical novel devoted to the French Revolution that I have been fortunate enough to encounter. Wolf Hall ends with "the sickening sound of the axe on flesh," as Sir Thomas More encounters the block, and this eerily echoes the bravura description of the guillotining of Danton at the end of A Place of Greater Safety.

A New York Times Book Review Notable Book of the Year It was the year after Chappaquiddick, and all spring Carmel McBain had watery dreams about the disaster. Now she, Karina, and Julianne were escaping the dreary English countryside for a London University hall of residence. Interspersing accounts of her current position as a university student with recollections of her childhood and an ever difficult relationship with her longtime schoolmate Karina, Carmel reflects on a generation of girls desiring the power of men, but fearful of abandoning what is expected and proper. When these bright but confused young women land in late 1960s London, they are confronted with a slew of new preoccupations--sex, politics, food, and fertility--and a pointless grotesque tragedy of their own. Hilary Mantel's magnificent novel examines the pressures on women during the early days of contemporary feminism to excel--but not be too successful--in England's complex hierarchy of class and status.

Hailed as a "writer of subtlety and depth," Hilary Mantel turns her dark genius on the world of psychics in this smart, unsettling novel (Joyce Carol Oates) A paragon of efficiency, Colette took the next natural step after finishing secretarial school by marrying a man who would do just fine. After a sobering, do-it-yourself divorce, Colette is at a loss for what to do next. Convinced that she is due an out-of-hand, life-affirming revelation, she strays into the realm of psychics and clairvoyants, hungry for a whisper to set her off in the right direction. At a psychic fair in Windsor she meets the charismatic Alison. Alison, the daughter of a prostitute, beleaguered during her childhood by the pressures of her connection to the spiritual world, lives in a different kind of solitude. She cannot escape the dead who speak to her, least of all the constant presence of Morris, her low-life spiritual guide. An expansive presence onstage, Alison at once feels her bond with Colette, inviting her to join her on the road as her personal assistant and companion. Troubles spiral out of control when the pair moves to a suburban wasteland in what was once the English countryside and take up with a spirit guide and his drowned therapist. It is not long before Alison's connection to the place beyond black threatens to uproot their lives forever. This is Hilary Mantel at her finest- insightful, darkly comic, unorthodox, and thrilling to read.

A stunning collection of essays and memoir from twice Booker Prize winner and international bestseller Hilary Mantel, author of *The Mirror and the Light*

In the ruthless arena of King Henry VIII's court, only one man dares to gamble his life to win the king's favor and ascend to the heights of political power England in the 1520s is a heartbeat from disaster. If the king dies without a male heir, the country could be destroyed by civil war. Henry VIII wants to annul his marriage of twenty years, and marry Anne Boleyn. The pope and most of Europe opposes him. The quest for the king's freedom destroys his adviser, the brilliant Cardinal Wolsey, and leaves a power vacuum. Into this impasse steps Thomas Cromwell. Cromwell is a wholly original man, a charmer and a bully, both idealist and opportunist, astute in reading people and a demon of energy: he is also a consummate politician, hardened by his personal losses, implacable in his ambition. But Henry is volatile: one day tender, one day murderous. Cromwell helps him break the opposition, but what will be the price of his triumph? In inimitable style, Hilary Mantel presents a picture of a half-made society on the cusp of change, where individuals fight or embrace their fate with passion and courage. With a vast array of characters, overflowing with incident, the novel re-creates an era when the personal and political are separated by a hairbreadth, where success brings unlimited power but a single failure means death.

A taut and terrifying trip into a distorting mirror--a novel as tense,
