All the colours of darkness. [Peter Robinson] -- A beautiful day and a group of children are enjoying their half-term freedom, until they discover a mans body hanging from a tree near the river. DI Cabott discovers he is Mark Hardcastle: a well ...

The eagerly awaited new novel from Canada's top crime-fiction writer. It's the May half-term school holiday, and the first warm day of the year has drawn a few children to the River Swain for a swim. When one boy chases another off the path that runs alongside Hindswell Woods, a glimpse of orange through the trees tempts them into the shadows. Moments later, their high spirits vanish in an instant, for there, to their shock (and ghoulish fascination), they find a man in a brightly coloured shirt hanging from a branch by a rope around his neck. Alan Banks is in London with his new girlfriend when news of the kids' ghastly discovery reaches the police in Eastvale, so the case falls to Annie Cabbot. And she's mystified. Why would a successful set and costume designer, with a well-reviewed production of Othello currently playing, be in such despair that he would take his own life? In All the Colours of Darkness, Peter Robinson has written an exceptionally gripping and intricately plotted story that delivers hard truths about jealousy and betrayal [] and of the insidious, corrosive power of secrets. Once more, Robinson proves that he is one of the finest crime-fiction writers in the world.

WINNER of the 2013 Printz Award. In darkness I count my blessings like Manman taught me. One: I am alive. Two: there is no two. In the aftermath of the Haitian earthquake a boy is trapped beneath the rubble of a ruined hospital: thirsty, terrified and alone. 'Shorty' is a child of the slums, a teenage boy who has seen enough violence to last a lifetime, and who has been inexorably drawn into the world of the gangsters who rule Site Soleil; men who dole out money with one hand and death with the other. But Shorty has a secret: a flame of revenge that blazes inside him and a burning wish to find the twin sister he lost five years ago. And he is marked. Marked in a way that links him with Toussaint L'Ouverture, the Haitian rebel who two-hundred years ago led the slave revolt and faced down Napoleon to force the French out of Haiti. As he grows weaker, Shorty relives the journey that took him to the hospital, a bullet wound in his arm. In his visions and memories he hopes to find the strength to survive, and perhaps then Toussaint can find a way to be free. . .

After rescuing his parents, Danny returns to his old life, burying the taro that allowed him to speak to animals, trees, and the very storms that led to his adventure. Danny thinks he's left magic and mystery behind, but Sammael, a creature of terrible imagination, refuses to let him go. A strange new girl, Cath, enters Danny's world, bringing with her a message: Danny's cousin Tom has sold his soul to Sammael. It's up to Danny and Cath to find Tom and stop Sammael, who seeks to destroy humankind once and for all.

On a cliff edge overlooking the North Sea, a quadriplegic woman in a wheelchair stares unseingly at the waves. She had been murdered. And, miles away, in a storeroom in the Maze, a medieval warren of yards and alleys at the heart of Eastvale, Yorkshire, a young woman lies sprawled on a heap of leather scraps. She too has been murdered. Their bodies are discovered at about the same time that DI Annie Cabbot, on secondment to the Eastern Area force, wakes with a severe hangover in the bed of a young man she barely recognizes. From these three strands, Peter Robinson weaves his latest complex and compelling story. While DCI Alan Banks tries to figure out how anyone was able to murder Hayley Daniels, when the closed-circuit cameras trained on the entrances to the Maze show that no one preceded or followed her into its shadows, Cabbot learns two things that make her blood run cold: the real intentions of her one-night stand and the true identity of the quadriplegic woman. A ghost from the past is back to haunt both her and Banks. Peter Robinson's Inspector Banks novels are among the best detective fiction in the world, and their multi-layered stories continue to surprise, engross, thrill, and delight readers. Friend of the Devil is a superb showcase of how deftly he balances horror with humour, police procedures with the nuances of all-too-human emotions, and endings with the promise of new starts. Once again, Robinson transcends the usual limits of the genre in this dazzling novel about the obsessive power of vengeance.

2019 First Novelist Award from the Black Caucus of the American Library Association An urgent and heartrending novel about an America on the brink! (Matt Gallagher, author of Youngblood), They Come in All Colors follows a biracial teenage boy who finds his new life in the big city disrupted by childhood memories of the summer when racial tensions in his hometown reached a tipping point. It's 1968 when fourteen-year-old Huey Fairchild begins high school at Claremont Prep, one of New York City's most prestigious boys' schools. His mother had uprooted her family from their small hometown of Akersburg, Georgia, leaving behind Huey's white father and the racial unrest that ran deeper than the Chattahoochee River. But for our sharp-tongued protagonist, forgetting the past is easier said than done. At Claremont, where the only other nonwhite person is the janitor, Huey quickly realizes that racism can lurk beneath even the nicest school uniform. After a momentary slip of his temper, Huey finds himself on academic probation and facing legal charges. With his promising school career in limbo, he begins to reflect on his memories of growing up in Akersburg during the Civil Rights Movementand the chilling moments leading up to his and his mother's flight north. With Huey's head-shaking antics fueling this coming-of-age narrative, the novel triumphs as a tender and honest exploration of race, identity, family, and homeland, and a work that is [emotionally acute]eye-opening and rewarding for a wide range of readers! (Library Journal, starred review).

It became necessary to connect all these incongruous parts and additions by the strangest galleries, halls and passages. All damages, whether inflicted by the hand of the enemy or the power of time, were quickly made good. As occasion required, they deepened the moats, raised the walls, and took care there should be no lack of towers, battlements, and embrasures. This care and these exertions gave rise to a prejudice in favour of the great importance of the fortress, and still upheld that prejudice, although the arts of building and fortification were by this time very much advanced, and people had learnt to construct much better dwellings and defences in other cases. But the old castle was chiefly held in honour because it had never been taken, because it had repulsed so many assaults, had baffled so many hostile operations, and had always preserved its virgin renown. This renown, this influence lasts even now: it occurs to no one that the old upstle is become uninhabitable. Its great duration, its costly construction, are still constantly spoken of. Pilgrims wend their way to it; hasty sketches of it are shown in all schools, and it is thus recommended to the reverence of susceptible youth. Meanwhile, the building itself is already abandoned; its only inmates are a few invalids, who in simple seriousness imagine that they are prepared for war. Thus there is no question here respecting a tedious siege or a doubtful war; so far from it we find this eighth wonder of the world already nodding to its fall as a deserted piece of antiquity, and begin at once, without further ceremony, to dismantle it from gable and roof downwards; that the sun may at last shine into the old nest of rats and owls, and exhibit to the eye of the wondering traveller that labyrinthine, incongruous style of building, with its scanty, make-shift contrivances, the result of accident and emergency, its intentional artifice and clumsy repairs. Such an inspection will, however, only be possible when wall after wall, arch after arch, is demolished, the rubbish being at once cleared away as well as it can be. To effect this, and to level the site where it is possible to do so, to arrange the materials thus acquired, so that they can be hereafter again employed for a new building, is the arduous duty we have undertaken in this Second Part. Should we succeed, by a cheerful application of all possible ability and dexterity, in razing this Bastille, and in gaining a free space, it is thus by no means intended at once to cover the site again and to encumber it with a new structure; we propose rather to make use of this area for the purpose of passing in review a pleasing and varied series of illustrative figures.
