It is the moment every twenty-something must confront: the time to grow up. Adulthood looms, with all its numbing tranquility and stifling complacency. The end of prolonged adolescence is near. Laura and Tyler are two women whose twenties have been a blur of overstayed parties, a fondness for drugs that has shifted from cautious experimentation to catholic indulgence, and hangovers that don't relent until Monday morning. They've been best friends, partners in excess, for the last ten years. But things are changing: Laura is engaged to Jim, a classical pianist who has long since given up the carousing lifestyle. He disapproves of Tyler's reckless ways and of what he perceives to be her bad influence on Laura. Jim pulls Laura toward adulthood and responsibility, toward what society says she should be, but Tyler isn't ready to let her go. But what does Laura want for herself? And how can she choose between Tyler and Jim, between one life she loves and another she's "supposed" to love? Raw, uproarious, and deeply affecting, *Animals* speaks to an entire generation caught between late-adolescence and adulthood wondering what exactly they'll have to give up in order to grow up.

INTERNATIONAL BESTSELLER "[E]ssential reading for our dismal times." -The Wall Street Journal One of Bustle's "Most Anticipated Books of Summer 2020" PopSugar's "26 Incredible New Books Coming Your Way This August" Good Housekeeping's "25 New Fall Books You Have to Read This Season" Lit Hub's "Most Anticipated Books of 2020" Fleabag meets Conversations with Friends in this brutally honest, observant, original novel about a woman going through a breakup...but really having more of a breakdown. Jenny McLaine's life is falling apart. Her friendships are flagging. Her body has failed her. She's just lost her column at The Foof because she isn't the fierce voice new feminism needs. Her ex has gotten together with another woman. And worst of all: Jenny's mother is about to move in. Having left home at eighteen to remake herself as a self-sufficient millennial, Jenny is now in her thirties and nothing is as she thought it would be. Least of all adulthood. Told in live-wire prose, texts, emails, script dialogue, and social media messages, Grown Ups is a neurotic dramedy of 21st-century manners for the digital age. It reckons with what it means to exist in a woman's body: to sing and dance and work and mother and sparkle and equalize and not complain and be beautiful and love your imperfections and stay strong and show your vulnerability and bake and box... But, despite our impossible expectations of women, Emma Jane Unsworth never lets Jenny off the hook. Jenny's life is falling apart at her own hands and whether or not she has help from her mother or her friends, Jenny is the only one who will be able to pick up the pieces and learn how to, more or less, grow up. Or will she?

A provocative and impressive debut delivered with a uniquely sinister lyricism by a brilliant 21-year-old; a story about sex, privilege, desire, and creativity in the post-college years The first thing Leif notices about Oola is the sharp curve of her delicate shoulders, tensed as if for flight. Even from that first encounter at a party in a flat outside of London, there's something electric about the way Oola, a music school dropout, connects with the cossetted, listless narrator we find in twenty-five-year-old Leif. Infatuated, the two hit the road across Europe, housesitting for Leif's parents' wealthy friends, and finally settling for the summer in Big Sur. Leif makes Oola his subject: he will attempt an infinitesimal cartography of her every thought and gesture, her every dimple, every snag, every swell of memory and hollow. And yet in this atmosphere of stifling and paranoid isolation, the world around Leif and Oola begins to warp--the tap water turns salty, plants die, and Oola falls dangerously ill. Finally, it becomes clear that the currents surging just below the surface of Leif's story are infinitely stranger than they first appear. Oola is a mind-bendingly original novel about the way that--particularly in the changeable, unsteady just-post-college years--sex, privilege, desire, and creativity can bend, blur, and break.

Brittany Newell bursts into the literary world with a narrative as twisted and fresh as it is addicting.

In the tradition of Jennifer Close's *Girls in White Dresses* comes a "a pin-sharp, utterly addictive debut" (Vogue U.K.) told in vignettes that speak to a new generation not trying to have it all but hoping to make sense of it all. "Everyone's been talking about this book. . . . Charming and funny, this read is simply delightful."—Bustle "A deadpan comic debut for the procrastination generation."—The Guardian Claire Flannery has just quit her office job, hoping to take some time to discover her real passion. The problem is, she's not exactly sure how to go about finding it. Without the distractions of a regular routine, Claire confronts the best and worst parts of herself: the generous, attentive part that visits her grandmother for tea and cooks special meals for her boyfriend, Luke, and the part that she feels will never measure up and makes regrettable comments after too many glasses of wine. What emerges is a candid, moving portrait of a clear-eyed heroine trying to forge her own way, a wholly relatable character whose imperfections and uncanny observations highlight what makes us all different and yet inescapably linked. Praise for *Not Working* "Ruefully funny . . . features a kind of millennial Bridget Jones whose red wine-and-TED Talk-fueled pursuit of a higher purpose in life leads to hard truths and hangovers."—Vogue "In this laugh-out-loud debut, Claire Flannery is a lost soul who quits her day job to discover her true passion. In taking a hard look at her own character, Claire finds that her loveable qualities are sometimes squashed by mistakes, like the evenings she blurts inappropriate remarks after too many glasses of wine. [Lisa] Owens's story is a smart, relatable and delicious debut."—Harper's Bazaar "It's no mean feat to fashion a novel out of the stuff of everyday life. . . . Fortunately, Owens is quite a writer. . . . *Not Working* works because there is lots going on beneath its placid, ordinary surface. . . . With this funny, serious debut, Lisa Owens has proved that she's one to watch."—The New Statesman "There are sharp observations about generational change, particularly on the topic of work. . . . The novel is a light read but it raises some timely issues. . . . A secure job with a future is not that easy to find, as Claire's comic and compelling tale serves to show. This book offers a form of catharsis for anyone who has felt that they are not quite doing their job right. . . . It is soothing to find you are not the only one noodling along in your career."—Financial Times "Stellar . . . [Owens has an] ability to take the potentially trite problem-of-the-privileged trope and deftly craft it into readable fun."—Publishers Weekly "Owens offers a millennial take on the traditional British chick-lit heroine. . . . Claire is a realistically awkward character who will appeal to readers looking for a less-angsty take on the new adult trend."—Booklist "A novel as insightful about the contemporary dilemmas facing young professionals as it is sharp, incisive and laugh-out-loud funny."—The Observer "Lots of people say they laugh out loud when they read a book they love. But in the case of *Not Working*, I really did laugh out loud, often and raucously."—Elisabeth Egan, author of *A Window Opens*

The debut novel about the life-changing choices we make about careers, love, friendship, and motherhood from bestselling UK author Emma Gannon. Olive is many things. Independent. Driven. Loyal. And a little bit adrift. She's okay with still figuring it all out, navigating her world without a compass. But life comes with expectations and big choices to be made. So when her best friends' lives branch away towards marriage and motherhood, leaving the path they've always followed together, she starts to question her choices—because life according to Olive looks a little bit different. Moving, memorable, and a mirror for anyone at a crossroads, OLIVE has a little bit of all of us. Told with humor and great warmth, this is a modern tale about the obstacle course of adulthood and the challenges of having—and deciding not to have—children.

THE SUNDAY TIMES BESTSELLER 'HILARIOUS' Stylist 'DAZZLING' Marian Keyes 'WITTY' Guardian 'HEARTBREAKING' Dolly Alderton 'INCREDIBLE' Candice Carty-Williams

The Betty Trask Award winner: A young female convict recounts her life to discover the good in it, and in herself, in this "moving, compassionate" novel (The Sunday Times). Twenty-one-year-old Beth has done plenty of good, grown-up sorts of things—including having a baby. But she's also done something bad enough to land her in prison. At the urging of her counselor, she begins to make a list of all the good things that have happened to her. It's difficult at first, as she was abandoned by her mother and shuffled from one foster home to another. Hers is a life that veered from a brilliantly artistic childhood to rough boyfriends and thankless jobs. As she writes, however, she begins to understand that every life has moments of peace, friendship, and triumph. From sharing silence with someone she loves, to feeling so happy it hurts, she begins to see her life—and herself—afew. But Beth must also acknowledge the act that sent her to jail, and confront the question: Is there a chance for her redemption?
