Nutritional anthropology is the study of the interplay between human biology, economic systems, nutritional status and food security. If economic and environmental changes in a community affect access to food, food security, and dietary health, then this interplay between culture and biology is in turn connected to broader historical and economic trends associated with globalization. Nutritional status affects overall health status, work performance potential, and the overall potential for econo

Anthropology of Food & Nutrition. Series Editor: Helen Macbeth, Oxford Brookes University. Eating is something all humans must do to survive, but it is more than a biological necessity. Producing food, foraging, distributing, shopping, cooking and, of course, eating itself are all are deeply inscribed as cultural acts.

BERGHAIN BOOKS : Anthropology Of Food And Nutrition

This course looks at human food use and nutrition from a broad anthropological perspective. We begin by examining the diets of our human ancestors, food origins, and human food revolutions, including contemporary industrial and biotechnological food production. The focus then shifts to the economic aspects of food production and

ANTHROP/HLTHAGE 2AN3 THE ANTHROPOLOGY OF FOOD AND NUTRITION

The Society for the Anthropology of Food and Nutrition (SAFN), formerly known as the Council on Nutritional Anthropology (CNA), was organized in 1974 in response to the increased interest in the interface between social sciences and human nutrition. SAFN has the following objectives:

About SAFN – FoodAnthropology

Understanding anthropology as a holistic discipline, and situating anthropology of food and nutrition within it. Four subfields Theoretical, Applied, Policy-Engaged, Advocacy, and Public Anthropology
Cross-cutting thematic interest groups (agriculture, health, environment, food and nutrition, human rights, religion, practice)

Nutrition 3xx: Anthropology of Food and Nutrition

The Anthropology of Food is an analysis of food in culture. While the primary purpose for food is nutrition, it also has a cultural dimension by which people choose what they eat not only by flavor or nutritional value but by cultural, religious, historic, economic or social status, and environmental factors.

urge need only be satisfied a few times in a lifetime; the hunger urge must be satisfied every day. It is also a profoundly social urge.

Food and Eating An Anthropological Perspective

About this blog. FoodAnthropology is the blog of the Society for the Anthropology of Food and Nutrition, a section of the American Anthropological Association.. Members of SAFN can use this blog to discuss the distinctive insights anthropology brings to anything even vaguely related to food, nutrition and, of course, their own research.

About FoodAnthropology – FoodAnthropology

An anthropological approach to the study of food draws upon and challenges the perspectives of other disciplines, whether agronomy or nutritional science, economics or law, history or literature. This programme has a first-rate graduate employability record, with graduates moving on to find employment in food-related government ministries, international organisations, development agencies, or non-governmental associations.

Anthropology of Food and Nutrition Ser.: Consuming the ...

Throughout human history nutrition has been shaped by political, economic, and cultural forces, and in turn, access to food and nutrition has altered the course and direction of human societies. Using a biocultural approach, the contributors to this volume investigate the ways in which food is both an essential resource fundamental to human health and an expression of human culture and society.
