The Bang & Olufsen Beovision Contour becomes one of only a handful of OLED TVs available under 50 inches. As you would expect from the premium Danish brand, it's a suitably luxurious affair. The design is pared back and minimalist, with all the messy cables hidden from view. Cyber Monday deals: see all the best offers right now!

All designers will feel that creativity and innovation are at the heart of their designs. But for a design to have an effective and lasting impact it needs to work within certain structures, or have those structures created suitably around it. No matter how you work, a design can always be improved by assessing where it fits into the market, how it best to strengthen it before it's set in stone, who it could appeal to. It needs to be managed. In this accessible and informative second edition, Kathryn Best brings together the theory and practice of design management. With new interviews, case studies and related exercises, she provides an up to date guide for students wanting to know more about the strategy, process and implementation crucial to the management of design. The book takes its reader through the essential steps to good management of design and highlights topics currently under debate. In each part of the book Strategy, Process and Implementation are each explained using advice from leaders in the industry and real life examples. Best breaks up each part into clear and readable sections to create the perfect undergraduate book on design management.

Rotter lebt in einem Wunderland, - denn er befindet sich seit Jahren nicht nur wegen seiner sexuellen Prägungen in der Psychiatrie und wird dort von Doktor Munk und dessen Gehilfen betreut, die ihm als Therapeuten und Erfüllungsgehilfen erscheinen. Die ihn zudem ermuntern #Merkel zu *erlösen, damit er selber *erlöst wird, sagen sie ihm. Und deswegen gewähren sie ihm Ausgang. Doch die Frage bleibt ... wer Rotter wirklich ist? Wer Doktor Munk und seine Gehilfen? Sind die zwei, drei seiner Seelen - oder zwei, drei Seiten einer unbekanntenen Seele? Nun, Fantasie, Wirklichkeit und real existierender Wahnsinn verschwimmen jedenfalls in #Rotters Denken zu einem Feuerwerk von Eindrücken. Gestalten wie Munk, Essig und Zeitz scheinen seinen irren Träumen entsprungen zu sein. Doch über all Dem bleibt die Frage ob #Rotter überhaupt Asperger- Autist ist, oder Drogenkonsument auf Entzug, oder ein flüchtiger Verbrecher der sich vom *Amt hat kaufen lassen um früher entlassen zu werden? Oder ist er doch *nur ein Ex-Fremdenlegionär mit Mordfantasie/n, - Systemaktivist, bezahlter Kanzler/innen- Mörder? Wie viel davon ist geträumt -, wie viel hat er wirklich erlebt? Und ob er sich wirklich sicher verwahrt in einer Anstalt befindet oder mitten unter uns, bleibt auch mehr als fraglich!? Also - Vorsicht...

The aim of this book is to support industry in their effort to design environ mentally friendly products. The book comprises a method and a manual for life cycle assessment of products and it includes examples of how industrial companies have used the method succesfully in the design of more environ mentally friendly products. The method has been developed over a period of four years under the Danish EDIP programme (Environmental Design of Industrial

Products) by a team representing the Technical University of Denmark, five Danish industrial companies, the Confederation of Danish Industries and the Danish Environmental Protection Agency. The method is coherent and operational and it is well documented by a large variety of examples including five different complex electromechanical products. It guides the user through the inventory and assessment of environmental impacts of products and shows how various products and design solutions during product development can be compared. The method is supported by a base of data for the assessments of environmental impacts and is thus designed as a tool which will make it possible for the user to start on life cycle assessment at once. The book also guides the user through the identification of environmental improvement potentials in the product and the setting of environmental specifications within the general concept of overall commercial optimization. The partnership between industry, authorities and university has been highly fruitful.
