Lawrence Hill's latest book, *Blood: The Stuff of Life*, is a meditation on the cultural and personal meanings of blood. An essential part of our anatomy, it is perhaps the only internal aspect of our physical beings that almost all of us, at some time or another, will see outside of its natural place.

## Blood: The Stuff of Life by Lawrence Hill

A mix of science, biology, medicine, history, social commentary and personal memoir it covers all sorts of stuff about blood: the good stuff in our bodies that carries around oxygen that keeps us alive; the bad stuff that carries diseases such as HIV, malaria, plague; who invented blood transfusions; Lady MacBeth and that damned spot; blood as a weapon of power; his musings on blood being thicker than water or not; do men and women have different blood; human sacrifice; drug taking in sport ...

Blood: The Stuff of Life

For women, it is the monthly blood that creates life itself. The Torah, in its ancient and perhaps awkward way, attempts to remind us that something as mundane as the blood of an animal has within it a microcosm of all that we hold holy, and of life itself, a gift that we should never, ever take for granted.

But blood is the most commonly tested part of the body, and it is truly the river of life. Every cell in the body gets its nutrients from blood. Understanding blood will help you as your doctor explains the results of your blood tests. In addition, you will learn amazing things about this incredible fluid and the cells in it.

How Blood Works | HowStuffWorks

This book is not primarily about "blood: the stuff of life" but blood and ancestry. It's not about life, it's about perception. There are repeated lengthy personal segues in each chapter that start to grate on one's nerves after a bit (as they take up more space than the cool history and cultural bits), and a lot of focus on blood is viewed sociologically.
