#1 New York Times bestselling author John C. Maxwell's latest book will enhance the lives of leaders, professionals, and anyone who wants to achieve success and personal growth. We often treat the word capacity as if it were a natural law of limitation. Unfortunately, most of us are much more comfortable defining what we perceive as off limits rather than what's really possible. Could it be that many of us have failed to expand our

potential because we have allowed what we perceive as capacity to define us? What if our limits are not really our limits? In his newest book, John Maxwell identifies 17 core capacities. Some of these are abilities we all already possess, such as energy, creativity and leadership. Others are aspects of our lives controlled by our choices, like our attitudes, character, and intentionality. Maxwell examines each of these capacities, and provides clear and actionable advice on how you can increase your potential in each. He will guide you on how to identify, grow, and apply your critical capacities. Once you've blown the "cap" off your capacities, you'll find yourself more successful--and fulfilled--in your daily life.

A positive attitude comes easy in times of joy and progress. But the real test of character comes during times of turmoil and conflict--which are always just on the horizon. When the skies above appear stormy, how will you steer that internal plane we call attitude? In *How High Will You Climb?* bestselling author and pastor John C. Maxwell emphasizes that even in the worst of storms, we are never flying solo. With God supporting our approach in every challenge that comes our way, we have the power to choose--yes, choose--the attitude we take with us on our journey. Oftentimes our outward expression and attitude during conflict is every bit as critical as the inward struggle, and our approach to the struggles in our family, in work, in life in general will actually determine the outcome more than the actual struggle. The choice is yours--when your path brings you through your next storm, how high will you climb?

Use this helpful book to learn about the leadership tools to fuel success, grow your team, and become the visionary you were meant to be. True leadership isn't a matter of having a certain job or title. In fact, being chosen for a position is only the first of the five levels every effective leader achieves. To become more than "the boss" people follow only because they are required to, you have to master the ability to invest in people and inspire them. To grow further in your role, you must achieve results and build a team that produces. You need to help people to develop their skills to become leaders in their own right. And if you have the skill and dedication, you can reach the pinnacle of leadership--where experience will allow you to extend your influence beyond your immediate reach and time for the benefit of others. The 5 Levels of Leadership are: 1. Position--People follow because they have to. 2. Permission--People follow because they want to. 3. Production--People follow because of what you have done for the organization. 4. People Development--People follow because of what you have done for them personally. 5. Pinnacle--People follow because of who you are and what you represent. Through humor, in-depth insight, and examples, internationally recognized leadership expert John C. Maxwell describes each of these stages of leadership. He shows you how to master each level and rise up to the next to become a more influential, respected, and successful leader.
