The BASF Kids' Lab program is an interactive, fun and free chemistry education program designed for kids aged 6 to 12 years to discover the world of chemistry through simple and safe experiments. This program has been brought to more than 30 countries across the globe.

BASF Kids' Lab

These preschool science projects permit kids to explore the properties of different kinds of dirt and mud. Kids will make observations using their senses and some science tools, like a magnifying glass and some tweezers. Kids will also explore the concept of change as they turn dirt into mud--and vice versa.
