This briefing looks at what data and statistics are available about child deaths due to abuse or neglect. Official measures are likely to be underestimations of the number of children who die due to abuse or neglect for a number of reasons, including: cause of death remaining unknown or unexplained. However, based on the number of child homicides recorded by the police each year, we know that, on average, at least one child is killed a week in the UK.

Drawing on detailed analysis of over 170 CAN deaths in the UK and Canada, Professor Greenland argues that it is possible to identify high risk cases and to save the lives of vulnerable children.

This book focuses on the prevention of child abuse and neglect deaths in the U.S. In 2013 1,520 children died from maltreatment. This book defines child maltreatment fatalities (CMFs) and discusses the prevalence of deaths in the U.S. over the last several decades. It addresses the known risk factors for maltreatment deaths including child, parent, the parent-child relationship, and household risk factors. The main focus of the book addresses the responses and interventions that have been put in place in order to prevent CMFs: the child welfare profession, child death review teams, safe haven laws, criminal justice responses, public education, and new, federal efforts in the U.S. to reduce CMFs in the U.S. The book finishes by making recommendations for researchers, practitioners, and decision-makers about how to prevent fatal maltreatment among children in the U.S.

A mother's search for the son she gave up uncovers terrifying secrets in a Minnesota town in this "masterfully depicted true-crime tale" (Publishers Weekly). In 1962, Jerry Sherwood gave up her newborn son, Dennis, for adoption. Twenty years later, she set out to find him—only to discover he had died before his fourth birthday. The immediate cause was peritonitis, but the coroner had never decided the mode of death, writing "deferred" rather than indicate accident, natural causes, or homicide. This he did even though the autopsy photos showed Dennis covered from head to toe in ugly bruises, his clenched fists and twisted facial expression suggesting he had died writhing in pain. Harold and Lois Jurgens, a middle-class, churchgoing couple in picturesque White Bear Lake, Minnesota, had adopted Dennis and five other foster children. To all appearances, they were a normal midwestern family, but Jerry suspected that something sinister had happened in the Jurgens household. She demanded to know the truth about her son's death. Why did authorities dismiss evidence that marked Dennis as an endangered child? Could Lois Jurgens's brother, a local police lieutenant, have interfered in the investigation? And most disturbing of all, why had so many people who'd witnessed Lois's brutal treatment of her children stay silent for so long? Determined to find answers, local detectives and prosecutors rebuilt the case brick by brick, finally exposing the shocking truth behind a nightmare in suburbia. A finalist for the Edgar Award, *A Death in White Bear Lake* is "a distinguished entry in the annals of crime documentary," and a vivid portrait of the all-American town that harbored a sadistic killer (The Washington Post).
