You could say of the present world crisis that it was former president Barack Obama's fault for not getting tougher with Russian president Vladimir Putin in Syria. You could blame former president ...

Brigand, a damaged clone, and Corgan, bred to be a hero, are rivals and the competition becomes more deadly when the beautiful Sharla comes between them and they fight for the Locker, a machine that stops aging.

Imagine a life of virtual reality -- a childhood contained in a controlled environment, with no human contact or experiences outside of the world of computer-generated images. Corgan has been genetically engineered by the Federation for quick reflexes, high intelligence, and physical superiority. Everything Corgan is, everything he has ever seen or done, was to prepare him for one moment: a bloodless, computer-controlled virtual war. When Corgan meets his two fellow warriors, he begins to question the Federation. Now Corgan must decide where his loyalties lie, what he's willing to fight for, and exactly what he wants in return. His decisions will affect not only these three virtual warriors, but all the people left on earth.

Earth's population has been decimated by disease, and fourteen-year-old Corgan, genetically engineered to be the perfect warrior, plays an important part in the impending virtual war alongside his partner, the beautiful Sharla.

Clones are supposed to be identical... aren't they? Corgan, hero of the Virtual War, has been living a blissful, if placid, life on the Isles of Hiva, his reward for winning the War with Sharla and Brig. But what he doesn't know is that Brig died soon after the War, and yet is not truly gone. Sharla had saved some of Brig's DNA and has created clone-twins with it. Corgan's world is disrupted when Sharla brings one of the clone-twins, Seabrig, to him to raise on the island, while she keeps the other, Brigand, with her in the Domed City. However, when circumstances force Sharla to bring Brigand to the island, they find that while the boys may look identical, their temperaments are not. Brigand is haughty, willful, power hungry, and despises Corgan because of his relationship with Sharla. And, as a result of the cloning process, both boys are growing at an astonishing rate. In what may or may not have been an accident with his clone-twin, Seabrig is badly injured and must be airlifted from the island to receive medical treatment in the Domed City. This leaves Corgan alone with an increasingly dangerous and unstable Brigand, who is now his size, and looking to get rid of Corgan once and for all. A gripping sequel to Virtual War that could be ripped straight from the headlines -- in eighty years....

As the visual representation of an essentially oral text, Sylvia Huot points out, the medieval illuminated manuscript has a theatrical, performative quality. She perceives the tension between implied oral performance and real visual artifact as a fundamental aspect of thirteenth- and fourteenth-century poetics. In this generously illustrated volume, Huot examines manuscript texts both from the performance-oriented lyric tradition of *chanson courtoise*, or courtly love lyric, and from the self-consciously literary tradition of Old French narrative poetry. She demonstrates that the evolution of the lyrical romance and *dit*, narrative poems which incorporate thematic and rhetorical elements of the lyric, was responsible for a progressive redefinition of lyric poetry as a written medium and the emergence of an explicitly written literary tradition uniting lyric and narrative poetics. Huot first investigates the nature of the vernacular book in the thirteenth and fourteenth centuries, analyzing organization, page layout, rubrication, and illumination in a series of manuscripts. She then describes the relationship between poetics and manuscript format in specific texts, including works by widely read medieval authors such as Guillaume de Lorris, Jean de Meun, and Guillaume de Machaut, as well as by lesser-known writers including Nicole de Margival and Watriquet de Couvin. Huot focuses on the writers' characteristic modifications of lyric poetics; their use of writing and performance as theme; their treatment of the poet as singer or writer; and of the lady as implied reader or listener; and the ways in which these features of the text were elaborated by scribes and illuminators. Her readings reveal how medieval poets and book-makers conceived their common project, and how they distinguished their respective roles.
