This volume, first published in 1959 and reprinted several times over the past 60 years, is the most comprehensive collection of information on the subject, drawing upon facts and illustrations Dr. Robbins had gathered and culled from thousands of ancient manuscripts, grimoires, trial records for people accused of witchcraft and sorcery, biographical accounts, descriptions of various demons, and murders attributed to werewolves and vampires.

### Amazon.com: The Encyclopedia Of Witchcraft & Demonology ...

The Book of Abramelin, possibly written in the 14th or 15th century, lists four princes of the demons: Lucifer, Leviathan, Satan and Belial. There are also eight sub-princes: Astaroth, Maggot, Asmodee, Beelzebub, Oriens, Paimon, Ariton (gin) and Amaymon. Under the rule of these there are many lesser demons.

Brief entries and illustrations introduce topics including individually named demons from a variety of cultures, historical figures, films, and cases of possession.

This exhaustive volume catalogs nearly three thousand demons in the mythologies and lore of virtually every ancient society and most religions. From Aamon, the demon of life and reproduction with the head of a serpent and the body of a wolf in Christian demonology, to Zu, the half-man, half-bird personification of the southern wind and thunder clouds in Sumero-Akkadian mythology, entries offer descriptions of each demon's origins, appearance and cultural significance. Also included are descriptions of the demonic and diabolical members making up the hierarchy of Hell and the numerous species of demons that, according to various folklores, mythologies, and religions, populate the earth and plague mankind. Very thoroughly indexed.

"This volume catalogs nearly three thousand demons in the mythologies and lore of virtually every ancient society and most religions. Entries offer descriptions, demon's origins, appearance, and cultural significance. Also included are descriptions of the demonic and diabolical members making up the hierarchy of Hell and the numerous species of demons that populate the earth and plague mankind"--Provided by publisher.

A compendium of information of the history, practitioners, and lore of witchcraft and sorcery.

The Dictionary of Demons starts with a simple premise: names have power. In medieval and Renaissance Europe, it was believed that speaking a demon's true name could summon it, compel it, and bind it. Occult scholar Michelle Belanger has compiled the most complete compendium of demonic names available anywhere, using both notorious and obscure sources from the Western grimoiric tradition. Presented alphabetically from Aariel to Zynextyur, more than 1,500 demons are introduced, explored, and cross-referenced by theme and elemental or planetary correspondence. This meticulously researched reference work features fascinating short articles on demonology and a wealth of woodcuts, etchings, and paintings depicting demons through the ages.

A compendium celebrating the art of hell and its minions Pandemonium: The Illustrated History of Demonology presents—for the first time—Satan's family tree, providing a history and analysis of his fellow fallen angels from Asmodeus to Ziminiar. Throughout the book, there are short entries on individual demons, but Pandemonium is more than just a visual encyclopedia. It also focuses on the influence of figures like Beelzebub, Azazel, Lilith, and Moloch on Western religion, literature, and art. Ranging from the earliest scriptural references to demons through the contemporary era, when the devils took on a subtler form, Pandemonium functions as a compendium of Lucifer's subjects, from Dante's The Divine Comedy to John Milton's Paradise Lost, and all the points in between. Containing rarely seen illustrations of very old treatises on demonology, as well as more well-known works by the great masters of Western painting, this book celebrates the art of hell like never before.

An encyclopedia describing and giving the history of angels from the time when the earth was created forward, using texts from Hebrew, Arabic, ancient and contemporary works.

Explains how to identify the many species of demons, where to find them, and the traditional ways of appeasing or dispelling them
