Engineering, procurement, and construction (EPC) contracts are the most common form of contract used to undertake construction works by the private sector on large-scale and complex infrastructure projects. Under an EPC contract a contractor is obliged to deliver a complete facility to a developer who need only turn a key to start operating the facility, hence EPC contracts are sometimes called turnkey construction contracts.

Engineering, procurement, and construction—Wikipedia

This Engineering, Procurement & Construction Management Agreement (this "Agreement"), is dated as of August 7, 2007, and is entered into by and between HOKU MATERIALS, INC., a Delaware corporation (hereinafter referred to as "Owner") and STONE & WEBSTER, INC.

Engineering, Procurement and Construction Management Agreement

Engineering, Procurement, and Construction Contracts or EPC Contracts are construction contracts that enjoy almost universal inclusion in project finance documents. They have emerged as the construction contract of choice in project financings that involve major international development projects. The increasing popularity of EPC Contracts is not due to the turnkey delivery method, which is the reason most often cited, although turnkey delivery is an appealing feature in EPC Contracts.
