documentaries. .You have unhindered access to the millions of reports, books, videos and images produced by our government every year at a cost of millions. All of it is waiting-hidden-like buried treasure...waiting to be discovered by someone with eyes to see the possibilities...the potential. This treasure is waiting for someone like YOU! Granted, you will need thecourage to believe that anything is possible. You will need a map that shows you where to look. And you will need an expert to train you how to see the hidden gems. Are you ready for X-ray vision? What I am describing is not some far-flung fantasy or pie-in-the-sky pipe dream. It is not a get-rich-quick back alley scam or even a high-level, complex secret reserved for geniuses and gurus. NO! What I am describing is the mostly undiscovered world of Public Domain. It is a world of hidden riches and forgotten secrets that would make the best tomb raiders and treasure hunters salivate with excitement. And your key to it all is "The Public Domain Code Book"! About the Author Tony Laidig is a researcher, a graphic artist, a photographer, a teacher, a publisher and a treasure hunter. He has worked in the Printing and Publishing industries for over 25 years-with the past 14 years spent working specifically as a graphic designer for the Publishing Industry. With over 500 book covers to his credit, Tony is now turning his design talents toward creating his own information products. The Public Domain Code Book is his first major project. Tony and his wife, Deborah, also serve as Directors of Healing the Land, a non-profit organization that addresses Native American issues through education, cultural presentations and publishing. Tony and Deborah's teenage daughters,

Ashlea and Courtney, are also actively involved in all aspects of Healing the Land as well. The Laidig family resides in South-Central Pennsylvania.
