An exploration of gender and desire from our most exciting new public intellectual
"Everyone is female, and everyone hates it."
Females is Andrea Long Chu's genre-defying investigation into sex and lies, desperate artists and reckless politics, the smothering embrace of gender and the punishing force of desire. Drawing inspiration from a forgotten play by Valerie Solanas—the woman who wrote

the SCUM Manifesto and shot Andy Warhol—Chu aims her searing wit and surgical intuition at targets ranging from performance art to psychoanalysis, incels to porn. She even has a few barbs reserved for feminists like herself. Each step of the way, she defends the indefensible claim that femaleness is less a biological state and more a fatal existential condition that afflicts the entire human race—men, women, and everyone else. Or maybe she's just projecting. A thrilling new voice who has been credited with launching the "second wave" of trans studies, Chu shows readers how to write for

After all, she has a great family, a goofy group of friends, a rocky romantic history, and dreams of being a music photographer. Tasked with picking an escort for her little sister's quinceañera, Maggie has to face the truth: that her feelings about her friends—and her future—aren't as simple as she'd once believed. As Maggie's search for the perfect escort continues, she's forced to confront new (and old) feelings for three of her friends: Amanda, her best friend and first-
