College Chemistry bestseller! General chemistry practice questions with detailed explanations that cover all inorganic chemistry topics: - Electronic and atomic structure of matter - Periodic table - Chemical bonding - States of matter: gases, liquids, solids - Solution chemistry - Acids and bases - Stoichiometry - Equilibrium and reaction rates - Thermochemistry - Electrochemistry This book provides 1,200 practice questions that test your knowledge of inorganic chemistry topics. The detailed explanations discuss why the answer is correct and - more importantly - why another answer that may have seemed correct is the wrong choice. The explanations include the foundations and details of important science topics needed to answer related questions on your tests. By reading these explanations carefully and understanding how they apply to solving the question, you will learn important chemistry concepts and the relationships between them. This will prepare you for your college chemistry exams and will significantly improve your

scores. All the questions in this book are prepared by chemistry instructors with years of experience. This team of chemistry educators analyzed standard college chemistry curricula and designed general chemistry practice questions that will help you build knowledge and develop the skills necessary for your success in the class. The questions were reviewed for quality and effectiveness by our science editors who possess extensive credentials, are educated in top colleges and universities, and have years of teaching and editorial experience

Higher score money-back guarantee! Join thousands of students using Sterling Test Prep study aids to achieve high test scores! With a thorough review of all chemistry tested concepts, this book prepares you to achieve a high score on the DAT. Scoring well on the DAT is essential for dental school admission to pursue your dream of practicing dentistry. This book helps you develop and apply knowledge to quickly choose the correct answers to the general chemistry questions on the Survey of the Natural Sciences test section. Solving targeted practice questions builds your understanding of fundamental chemistry concepts and is a more effective strategy than merely memorizing terms. This book has 1,140 high-yield practice questions covering DAT general chemistry topics. Chemistry instructors with years of teaching experience prepared these questions by analyzing the test content and developing practice material that builds your knowledge and skills crucial for success on the DAT. Our editorial team reviewed

and systematized the content to match the current ADA test requirements. We are experts on preparing students for standardized tests and admissions into competitive dental schools. The detailed explanations in this book describe why an answer is correct and - more important for your learning - why another attractive choice is wrong. They provide step-by-step solutions for quantitative questions and teach the scientific foundations and details of essential chemistry topics needed to answer conceptual test questions. Read the explanations carefully to understand how they apply to the question and learn important general chemistry principles and the relationships between them. With the practice material contained in this book, you will significantly improve your DAT score.

500 ways to pass the General Chemistry section of the new MCAT! Intensive practice + detailed answer explanations—the best way to sharpen skills and prepare for the exam In anticipation of the fully revised 2015 MCAT, 500 Review Questions for the MCAT: General Chemistry has been updated to comprehensively cover the chemistry portion of the Chemical and Physical Foundations of Biological Systems section. This book provides the problem-solving practice you need to take the exam with confidence. 500 questions organized by subject Follows the new MCAT format Complete explanations to every question given in the answer key
