Summary of the HIPAA Privacy Rule | HHS.gov

The Rule does protect your medical or health plan records if you are a patient of the provider or a member of the health plan. Requests from your employer Your employer can ask you for a doctor's note or other health information if they need the information for sick leave, workers' compensation, wellness programs, or health insurance.

Employers and Health Information in the Workplace | HHS.gov

This rule deals with the transactions and code sets used in HIPAA transactions, which includes ICD-9, ICD-10, HCPCS, CPT-3, CPT-4 and NDC codes. These codes must be used correctly to ensure the safety, accuracy and security of medical records and PHI.

Understanding the 5 Main HIPAA Rules - HIPAA Training

The HIPAA Rules provide federal protections for patient health information held by Covered Entities (CEs) and Business Associates (BAs). HIPAA gives patients many rights with respect to their health information. The Guide (especially Chapter 2) [PDF - 493 KB] provides details on the HIPAA Privacy, Security, and Breach Notification Rules, such as:

HIPAA for Providers | HealthIT.gov

It mandates data protection for anyone who creates, stores, transmits or uses individually identifiable health information. All healthcare entities and companies which handle, store, maintain, or transmit patient health information are expected to be in complete compliance with the regulations of the HIPAA law.

What is HIPAA Compliance and Why is it Important to ...

HIPAA privacy guidelines are defined in the HIPAA Privacy Rule. These HIPAA guidelines include national standards that all covered entities (defined as healthcare providers, healthcare clearinghouses, or health insurance plans) must address within their business.

HIPAA Guidelines - Compliance Group

The HIPAA Breach Notification Rule also requires all breaches of unsecured ePHI affecting more than 500 individuals to be reported to the Department of Health and Human Services' Office for Civil Rights within 60 days of the discovery of a breach.

HIPAA Compliance Guide - HIPAA Guide

HIPAA requires that you keep medical records for six years from the date of their creation or last use, whichever comes later. States have additional requirements for record retention. If the state requires that you keep a record longer than six years, their law supersedes HIPAA.
