From Bunmi Laditan, the creator of the Honest Toddler blog, *The Big Bed* is a humorous picture book about a girl who doesn't want to sleep in her little bed, so she presents her dad with his own bed'a camping cot!In order to move herself into her parents' big bed in his place. A twist on the classic parental struggle of not letting kids sleep in their bed.

We spend most of our lives in buildings and almost every building is unique. The purpose of this book is to explain what buildings are and to provide an integrated overview of how they are built and sustained. The book does not presume any specialist knowledge of buildings, seeking instead to explain why the different groups involved in designing, constructing, managing and occupying them follow certain procedures. It is particularly concerned with the generation and circulation of information between these groups. In taking this view, the book considers the recommendations of Sir Michael Latham's 1984 report *Constructing the Team* which called for better cohesion and communication between specialists in the construction industry.
