This edition expands its scope as a conveniently arranged petroleum fluids reference book for the practicing petroleum engineer and an authoritative college text.

A groundbreaking book about the nineteenth century obsession with hysteria.

Paragraph Development helps students edit their own writing for clarity and accuracy and offers a three-phase strategy for building writing skills through planning, writing, and revising. The approach in each chapter is direct and functional: a model is provided and graphically explained, then students use the model to write their own paragraphs.-- Offers controlled information-transfer exercises, a choice of writing topics, and peer consultation and writing-evaluation methods.

Environment, Tenth Edition helps students understand the connection between the core concepts of the Environmental Science and their daily lives. The 10th edition enhanced e-text features a rich, interactive collection of current case studies and in-text examples, which provides students with the tools to understand, apply, and think critically about environmental science. It also provides instructors with powerful tools to assess individual students progresses well as the class as a whole.
