A top-selling teacher resource line, The 100+ Series(TM) features over 100 reproducible activities in each book! Ancient Latin and Greek live on in the words we speak every day. Introduce your students to the fun and challenge of word genealogy with Words on the Vine, a 36-unit vocabulary program based on common Latin and Greek roots that will provide you with a framework for an entire school year. Each unit introduces 10 related words and shows how their definitions can be traced back to a common meaning. Students first examine each word in context to understand its correct usage. Then they have the opportunity to put the words to work for themselves in creative and challenging assignments. Each unit provides easy-to-remember visual clues, fun-to-read usage examples, and hand-on activities.

Although they may be fluent readers - indeed, many have very precocious reading skills - individuals with autism spectrum disorders often need support for comprehension. Comprehension difficulties in readers with ASD can be subtle, qualitative, and difficult to tease out. As a result, their substantial level of risk for reading comprehension problems is often overlooked or unaddressed, and many students struggle in silence. Further aggravating the situation is the fact that otherwise competent educational professionals in both general education and special education settings have limited training and experience helping readers with ASD. This is where Drawing a Blank comes in. Using a clearly stated and well-organized approach, this practical resource provides educational professionals and parents with the tools to improve comprehension for good decoders who have reading comprehension difficulties, as well as readers who struggle with both decoding and comprehension. In keeping with current standards, the book emphasizes the importance of using evidence-based and promising practices based on thorough assessment of student's needs.
