Teaching & Learning Series UTeM

Designed for a first course in technical mathematics, this comprehensive, easy-to-read text is ideal for students with minimal mathematics training who wish to prepare for further study in technical areas. The newly revised Third Edition builds on the success of the first two editions, featuring a new chapter on using the quadratic formula to solve quadratic equations. Moreover, extra problem sets that feature technical applications have been added to several chapters. Introduction to Technical Mathematics, 3/E has a versatile format that can be used in many instructional settings. Its user-friendly approach includes problem-solving chapters designed to help students apply basic mathematical principles to a multitude of situations. Students also will benefit from the wealth of applications contained in the worked-out examples and problem sets.

Early Childhood Mathematics, Fifth Edition is the most widely used guide for educators on teaching mathematics to young children in Kindergarten through Third Grade. Practical and applied, this trusted and research-based book encourages teachers and teacher candidates to create an active learning environment that fosters curiosity, confidence, and persistence in children learning mathematics. Expert author, Susan Sperry Smith relies heavily on the most current research in the field, aligns core content to the NCTM Standards, presents information on Cognitive Guided Instruction (CGI) and necessary adaptations for students with special needs. The book covers the most important key concepts for teaching math in the early years with three over-arching themes: knowledge of important mathematical relationships, number sense, and the ability to solve problems. The fifth edition builds on the reliability and excellency of previous editions with new information on meeting the educational needs of all students, the importance of STEM careers beginning in early childhood education, more activities, thematic unit, and curricular tools, multicultural literature and activities, a comprehensive update on The Common Core State Standards, NAEP, and the new DAP Position Statement.
