Offers simple and creative ideas for how children can start a business with little or no start-up costs, attract and retain customers, and develop negotiating skills.

“In the mountains Atticus became more of what he’d always been, and I became less-less frantic, less stressed, less worried, and less harried. I felt comfortable letting him lead, and he seemed to know what I needed. He always chose the best route, if ever there was a question, and my only job was to follow.” Middle-aged, overweight, and acrophobic newspaperman Tom Ryan and miniature schnauzer Atticus M. Finch are an unlikely pair of mountaineers, but after a close friend dies of cancer, the two pay tribute to her by attempting to climb all forty-eight of New Hampshire’s four-thousand-foot peaks twice in one winter while raising money for charity. In a rare test of endurance, Tom and Atticus set out on an adventure of a lifetime that takes them across hundreds of miles and deep into an enchanting but dangerous winter wonderland. Little did they know that their most difficult test would lie ahead, after they returned home. . . . At the heart of this remarkable journey is an extraordinary relationship that blurs the line between man and dog, an indelible bond that began when Tom, following the advice of Atticus’s breeder, carried the pup wherever he went for the first month of their life together. Following Atticus is ultimately a story of transformation: how a five-pound puppy pierced the heart of a tough-as-nails newspaperman, opening his eyes to the world’s beauty and its possibilities. It was a change that led to a new life among the mountains; an unforgettable saga of adventure, friendship, and the unlikeliest of family; and an inspiring tale of finding love and discovering your true self.

Week after week, a wealthy white businessman rides the same bus, befriending a single black mom. As they get to know one another, their pasts unfold and tensions rise, igniting a disturbing and crucial exploration of race.

You may think you know how this book was made, but you don't. Sure, the author wrote many drafts, and the illustrator took a long time creating the art, but then what? How'd it get into your hands? Well, open the cover and read through these pages to find out. Just beware of the pirates and angry tiger. New York Times best-selling creators Mac Barnett and Adam Rex reveal the nitty gritty process of making a book . . . with a few unexpected twists along the way! Budding writers and artists will laugh at the mix

of reality and the absurd as the story makes its way to a shelf, and a reader.

Engage the World Change the World Deep Learning has claimed the attention of educators and policymakers around the world. This book not only defines what deep learning is, but takes up the question of how to mobilize complex, whole-system change and transform learning for all students. Deep Learning is a global partnership that works to: transform the role of teachers to that of activators who design experiences that build global competencies using real-life problem solving; and supports schools, districts, and systems to shift practice and how to measure learning in authentic ways. This comprehensive strategy incorporates practical tools and processes to engage students, educators, and families in new partnerships and drive deep learning.
