Fuels, Lubricants, Coolants, and Filters easily helps a reader to understand these wonderful liquids and filters better. By starting with the basics, it builds your knowledge step-by-step in a very structured manner.

As today's spark-ignition and diesel engines have to fulfil constantly increasing demands with regard to CO2 reduction, emissions, weight and lifetime, detailed knowledge of the components of an internal combustion engine is absolutely essential. Automotive engineers can no longer survive without such expertise, regardless of whether they are involved in design, development, testing or maintenance. This text book provides answers to questions relating to the design, production and machining of cylinder components in a comprehensive technical

a necessity to keep your lessons to view all in one place. Size is 8x10 inches, soft matte finish cover, white paper, 150 pages.

'The Book entitled " Mechanization of Horticulture" deals with different operations for production and post-harvest processing and management of horticultural crops and commodities. This book is essentially a Monograph which has been divided into 16 chapters. Chapters I and II summaries the current horticultural scenario as well as status of agricultural mechanization in india. Chapter III through XII deal with various operations, viz. seed bed preparation, planting, nursery raising, soil working tools transplanting of seedlings weeding and mulching, pruning, spraying and harvesting. Information regarding different types of equipment available in India and abroad has been included in these chapters. The last three chapters viz. chapters XIII through XVI deal with packaging of horticultural produce post harvest management and storage, green house design and construction as well as irrigation systems. Thus, it will serve as a useful reference book for teachers, researchers, extension workers, farmers, students as well as other state holder.'
