This challenging volume contains articles by a wide variety of well-known scholars and practitioners, and deals with human rights, international humanitarian law, international criminal law and humanitarian assistance, as well as other areas of international law relating to the protection of humanity. These are topics to which Flavia Lattanzi, in whose honour the volume is being published, has made an outstanding contribution and to which she has given her determined and unrelenting professional and personal commitment. As a former Professor at the Universities of Pisa, Sassari, Teramo and Roma Tre and as Judge ad litem at the International Tribunal for Rwanda and the International Tribunal for the Former Yugoslavia, she has adhered constantly to a number of important principles, as reflected in the research contained in this volume. They include the firm conviction that respect for human rights is an indispensable precondition for durable peace; the notion that grave breaches of human rights, including the refusal to provide assistance to populations in distress, can imply a threat to international peace and security; and that guarantees against human rights violations include the question of the punishment of core crimes under International Law.

This book describes the trends in digital innovation that are of most importance for businesses and explores the key challenges. The book is in three parts, the first of which focuses on developments in digital systems. Here, the ever-growing relevance of big data, cloud computing, and mobile services for business is discussed, and detailed consideration is given to the importance of social listening for understanding user behavior and needs and the implications of IT consumerization. In the second part, trends in digital management are examined, with chapters devoted to work practice, digital business identity as well as branding and governance. The final part of the book presents and reviews case studies of digital innovation at the global level that provide a benchmark of best practices, with inclusion of instructive fact sheets. While the book offers academic coverage of the digital transformation of business organizations and the associated challenges, it also describes concrete, real-world issues in clear, easy-to-understand language and will serve as a toolbox for managers that can be readily consulted. The text is supported by informative illustrations and tables, and practitioners will also benefit from the reported case studies and highlighted insights and recommendations.

Leur diplôme en poche, Jack, Ben et David, amis de toujours, s'offrent une aventure lointaine. Pour ne pas faire comme les autres, ce sera l'Ouganda. Un pays dont ils ne savent rien, pas même les dangers. Un voyage dont ils ne reviendront pas tous... Des années plus tard, Jack Carrigan est devenu une légende au sein de la police londonienne. Il se voit chargé d'une enquête épineuse : le meurtre sauvage de Grace Okello, jeune étudiante d'origine ougandaise. S'agit-il d'un vulgaire crime crapuleux, ou bien ce meurtre est-il lié aux découvertes de l'étudiante sur les groupes rebelles qui se disputent son pays ? Cette enquête va plonger Carrigan, secondé par le sergent Geneva Miller, dans l'univers violent de la diaspora africaine et les refuges d'ex-enfants soldats pour le guider jusqu'aux secrets bien gardés de l'ambassade. Une intrigue sans frontières et à haut risque qui l'obligera surtout à affronter les fantômes de son passé. « Un roman hors normes, au style impeccable, une intrigue choc avec l'Afrique pour toile de fond. » The Times

La condamnation de Hissein Habré pour crimes contre l'humanité a été décrite comme "un tournant pour la justice des droits humains en Afrique et au-delà". Pour la première fois, un criminel de guerre africain était condamné sur le sol africain. Pour avoir, dès le début, suivi le procès et interrogé de nombreuses personnes impliquées, la journaliste Celeste Hicks raconte la remarquable histoire de la manière dont Habré a été traduit en justice. Sa condamnation fait suite à une campagne héroïque de 25 ans menée par des militants et des survivants des atrocités de Habré qui a abouti, malgré l'indifférence internationale, l'opposition des alliés de Habré et plusieurs tentatives infructueuses de le traduire en justice en Europe et ailleurs. Face à de telles difficultés, la condamnation d'un dirigeant, autrefois intouchable, représente un tournant majeur, et a de profondes implications pour la justice africaine et l'avenir de l'activisme pour les droits humains dans le monde.

&"Richard Opio has neither the look of a cold-blooded killer nor the heart of one. Yet as his mother and father lay on the ground with their hands tied, Richard used the blunt end of an ax to crush their skulls. He was ordered to do this by a unit commander of the Lord's Resistance Army, a rebel group that has terrorized northern Uganda for twenty years. The memory racks Richard's slender body as he wipes away tears.&" For more than twenty years, beginning in the mid-1980s, the Lord's Resistance Army has ravaged northern Uganda. Tens of thousands have been slaughtered, and thousands more mutilated and traumatized. At least 1.5 million people have been driven from a pastoral existence into the squalor of refugee camps. The leader of the rebel army is the rarely seen Joseph Kony, a former witchdoctor and self-professed spirit medium who continues to evade justice and wield power from somewhere near the Congo-Sudan border. Kony claims he not only can predict the future but also can control the minds of his fighters. And control them he does: the Lord's Resistance Army consists of children who are abducted from their homes under cover of night. As initiation, the boys are forced to commit atrocities-murdering their parents, friends, and relatives-and the kidnapped girls are forced into lives of sexual slavery and labor. In First Kill Your Family, veteran journalist Peter Eichstaedt goes into the war-torn villages and refugee camps, talking to former child soldiers, child &"brides,&" and other victims. He examines the cultlike convictions of the army; how a pervasive belief in witchcraft, the spirit world, and the supernatural gave rise to this and other deadly movements; and what the global community can do to bring peace and justice to the region. This insightful analysis delves into the war's foundations and argues that, much like Rwanda's genocide, international intervention is needed to stop Africa's virulent cycle of violence.

La réforme de l'Etat participe de ces débats récurrents dans les pays africains depuis les indépendances. Qu'il soit le produit d'une création volontariste et raisonné ou celui d'un processus empirique et spontané, l'Etat a toujours besoin de s'adapter à son environnement pour justifier sa propre existence et assurer sa pérennité à travers la continuité et l'efficacité de l'administration et du service public. Cette adaptation ne peut s'opérer sans des réformes, ressenties comme une nécessité incontournable. A cet égard, comparer les services de l'Etat à des entreprises privées n'est pas un abus de Ion age, d'autant que cette comparaison est déjà implicite lorsqu'on parle de la faillite de l'Etat. La philosophie de l'entreprise privée est de viser la productivité et la performance et d'offrir le meilleur service à ses clients dans les conditions optimales possibles, sinon ceux-ci s'adressent à la concurrence. D'où à terme sa faillite si elle ne fait rien pour prendre en compte les attentes et les demandes de sa clientèle : il en résulte ainsi un jeu dialectique entre clientèle et entreprise, laquelle cherche à améliorer les services qu'elle rend. On peut étendre cette approche à l'administration publique en ce sens que lorsqu'une structure étatique n'est pas en phase avec ses propres objectifs et ses usagers, elle risque la mort symbolique sinon réelle. Dans leur ensemble les dirigeants africains sont conscients de la nécessaire réforme de l'Etat ainsi que le rapportent les cas rassemblés dans ce dossier : Burkina Faso, Gabon, Madagascar, Nigeria, voire France, etc. Dans le même temps, on note que ces réformes atteignent rarement leurs buts, avec des résultats médiocres. Au lieu de réduire les dysfonctionnements, elles en arrivent paradoxalement à devenir elles-mêmes un poids supplémentaire, s'ajoutant ainsi aux maux qu'elles veulent corriger. Est-ce à dire que les Etats africains sont irréformables ? Pourquoi les réformes n'aboutissent-elles pas ? Comment apprécier le décalage entre les objectifs initiaux et les résultats finaux ? L'environnement social et les cultures d'Etat y sont-ils pour quelque chose ? Le dossier de cette livraison de l'Afrique politique tente des réponses à ces questions cruciales.
