The President's teenaged son is threatened by a potentially fatal illness that is rooted in dark secrets from a long-buried past. President Geoffrey Hilliard and his family live in the ever-present glare of the political limelight, with relentless scrutiny of their daily lives. The White House is not an easy place to grow up, so when the President's son Cam, a sixteen-year-old chess champion, experiences extreme fatigue, moodiness, and an uncharacteristic violent outburst, doctors are quick to dismiss his troubles as teen angst. But Secret Service agent Karen Ray, whose job is to guard the president's family with her life, is convinced Cam's issues are serious - serious enough to summon her physician ex-husband for a second opinion. Dr. Lee Blackwood's concerns are dismissed by the president's team - until Cam gets sicker. Lee must make a diagnosis from a puzzling array of symptoms he's never seen before. His only clue is a patient named Susie Banks, a young musical prodigy who seems to be suffering from the same baffling condition as Cam. Hospitalized after an attempt on her life by a determined killer, Susie's jeopardy escalates as Cam's condition takes on a terrifying new dimension. Is someone trying to murder the President's son? As Lee and Karen race for a cure to Cam's mysterious and deadly disease, they begin to uncover betrayals that breach the highest levels of national security. Returning to the same Washington, DC setting of The First Patient, which former President Bill Clinton said "captured the intense atmosphere of the White House," The First Family is a riveting new medical drama from acclaimed novelist Daniel Palmer, in the tradition of his late father, New York Times bestselling novelist Michael Palmer. Praise for The First Family: "Terrifying and all too plausible-Daniel Palmer continues his father's tradition of delivering authentic and high-velocity medical suspense. The combination of medical chills and high-level Washington make The First Family irresistible." -Joseph Finder, New York Times bestselling author of Paranoia and The Switch "Palmer's The First Family gives you likable characters to root for, a top-notch villain, and enough excitement to make your hair curl. Have fun with this thriller." -Catherine Coulter, author of The Devil's Triangle "Double the trouble, twice the action, and quadruple the enjoyment, this is a high-octane game changer." -Steve Berry, New York Times bestselling author of The Bishop's Pawn and The Lost Order "High-stakes and intelligent, The First Family is everything you want in a medical thriller. Chilling!" -Robert Dugoni #1 Amazon, Wall Street Journal and New York Times bestselling author of My Sisters Grave "The First Family is adrenaline-fueled entertainment that twists, turns, surprises and satisfies!" -John Lescroart, New York Times bestselling author "A Palmer novel transports you into the complex world of medical-legal-social ethics. The First Family doesn't disappoint, wrestling with the murky questions of what we can do versus what we should do. Gripping." -Kathy Reichs, New York Times bestselling author and creator of Bones

This book focuses on mobile learning design from both theoretical and practical perspectives. It introduces and discusses how mobile learning can be effectively integrated into curricula, highlighting the design of four key components of learning-centric pedagogy: Resource, Activity, Support and Evaluation in the context of mobile learning. It also investigates the learning theories underpinning mobile learning design, and includes case studies in different contexts. It provides practical insights that allow teachers to change and transform teaching practices using mobile technology. Anyone involved in mobile-technology enhanced learning and teaching will find this book both informative and useful.
