Sailors trusted him with their money and their lives. That was a mistake. The lucky ones woke up with headaches in the holds of ships headed to China. The others never took another breath. Billy Gohl robbed, 'shanghaied, ' and killed sailors across the Pacific Northwest. Grays Harbor in Aberdeen, Washington was so full of bodies that newspapers dubbed it a 'floaters fleet.' His trapdoor of death was famous. In his time, Gohl murdered over 100 people, making him one of the most prolific serial killers in American history. If you're a fan of Erik Larson's Devil in the White City, Harold Schechter's Little Slaughterhouse on the Prairie, and Truman Capote's In Cold Blood, you'll love Dead True Crime. Ghoul of Grays Harbor: Murder & Mayhem in the Pacific Northwest is part of Dead True Crime, a series of historical true crime stories of serial killers, bizarre cases, and little-known murderers. Meticulously researched short reads, they're the perfect length for a flight, the beach, or a sleepless night. C.J. Don't turn your back on her. Don't even blink. She may be crazy, but Lizzie Halliday is strong, she moves fast, and she's a stone cold killer. When famed journalist Nellie Bly interviews the woman the New York Times called "The Worst Woman on Earth," she has no idea how easy it would be for Lizzie Halliday to make Bly her next victim. In the peaceful Catskills in upstate New York, Halliday dispatches husbands, neighbors and peddlers by fire, poisoning and gunshot. The bloody death count at the Halliday farm earns it the name, "Murderer's Gulch." But even after she's arrested and committed to an insane asylum, Lizzie Halliday will kill again. He's a doctor whose patients have a way of dying; a lawyer, who uses his skills to squirm out of criminal convictions. He's a scholar, but other scholars have no idea what he's talking about. He's a family man, but one day, his wife and baby disappear forever. Only two things are clear: Edward Rulloff is a mystery, and everywhere he goes, death and destruction follow. While the criminal justice system has its hands full trying to keep and convict Edward Rulloff, the world will argue whether he's a genius, a scam artist or a madman. Even Mark Twain has an opinion. First, she predicts your death. Then, you die. Usually, writhing in pain. Is she a fortune teller, or something much, much darker? Nobody tells the police, not for a long time, because, well, nobody in Chicago's Little Warsaw wants to cross Tillie Klimek. The body count racks up as Jazz Age Chicago's most notorious female poisoner takes down husband after husband, and some other relatives while she's at it. Few, it seems, can resist Tillie's cooking. But is this Mrs. Bluebeard working alone? Or is she part of a bigger, more diabolical "poison trust"? And can Chicago's Finest get to her before her latest husband, already mortally ill, dies? *Poison Widow* is a true-crime aficionado's feast, arsenic-laced and stuffed with tasty noir morsels. There are rumors. Someone saw him stark naked in the church library. Others whisper that he visited brothels and engaged in lewd acts involving slaughtered birds... But he's such a nice young man, that medical student who finds time to teach Sunday School. And the good people of Emmanuel Baptist Church don't listen to rumors. They should. When two young women in San Francisco go missing, Theodore Durrant seems as worried as the rest of the neighborhood. But is he the man they think they know? As the Emmanuel Baptist ladies prepare for Easter festivities, they'll find more than Easter eggs hidden in the church closet. The "Axe-man" came in the night. No one heard him come. No locks could keep him out. In the morning, whole families lay slaughtered in their beds, a riot of blood corrupting the room. Town by town, terror gripped the black communities of Louisiana and East Texas, as men, women, and children fell to the killer's ax. The police were powerless to stop it. Was it simply a homicidal maniac on the loose, or was a deeper evil afoot? Could one person perpetrate over forty atrocities? Was the serial killer even a man? People whispered voodoo, and white newspapers in the Jim Crow-era South fanned the hysteria. As the police slowly unraveled the mystery, they were stunned by the bizarre truth of the "Axe-man." A humorous graphic investigation of the author's obsession with true crime, the murders that have most captivated her throughout her life, and a love letter to her fellow true-crime fanatics. Why is it so much fun to read about death and dismemberment? In *Murder Book*, lifelong true-crime obsessive and *New Yorker* cartoonist Hilary Fitzgerald Campbell tries to puzzle out the answer. An unconventional graphic exploration of a lifetime of Ann Rule super-fandom, amateur armchair sleuthing, and a deep dive into the high-profile murders that have fascinated the author for decades, this is a funny, thoughtful, and highly personal blend of memoir, cultural criticism,

and true crime with a focus on the often-overlooked victims of notorious killers.

In the pantheon of serial killers, Belle Gunness stands alone. She was the rarest of female psychopaths, a woman who engaged in wholesale slaughter, partly out of greed but mostly for the sheer joy of it. Between 1902 and 1908, she lured a succession of unsuspecting victims to her Indiana "murder farm." Some were hired hands. Others were well-to-do bachelors. All of them vanished without a trace. When their bodies were dug up, they hadn't merely been poisoned, like victims of other female killers. They'd been butchered. *Hell's Princess* is a riveting account of one of the most sensational killing sprees in the annals of American crime: the shocking series of murders committed by the woman who came to be known as Lady Bluebeard. The only definitive book on this notorious case and the first to reveal previously unknown information about its subject, Harold Schechter's gripping, suspenseful narrative has all the elements of a classic mystery--and all the gruesome twists of a nightmare.

"Rich in historical perspective and graced by novelistic touches, grips the reader from first to last."—Wall Street Journal A suspense filled tale of murder on the American frontier—shedding new light on a family of serial killers in Kansas, whose horrifying crimes gripped the attention of a nation still reeling from war. In 1873 the people of Labette County, Kansas made a grisly discovery. Buried by a trailside cabin beneath an orchard of young apple trees were the remains of countless bodies. Below the cabin itself was a cellar stained with blood. The Benders, the family of four who once resided on the property were nowhere to be found. The discovery sent the local community and national newspapers into a frenzy that continued for decades, sparking an epic manhunt for the Benders. The idea that a family of seemingly respectable homesteaders—one among the thousands relocating farther west in search of land and opportunity after the Civil War—were capable of operating "a human slaughter pen" appalled and fascinated the nation. But who the Benders really were, why they committed such a vicious killing spree and whether justice ever caught up to them is a mystery that remains unsolved to this day. Set against the backdrop of postbellum America, *Hell's Half-Acre* explores the environment capable of allowing such horrors to take place. Drawing on extensive original archival material, Susan Jonusas introduces us to a fascinating cast of characters, many of whom have been previously missing from the story. Among them are the families of the victims, the hapless detectives who lost the trail, and the fugitives that helped the murderers escape. *Hell's Half-Acre* is a journey into the turbulent heart of nineteenth century America, a place where modernity stalks across the landscape, violently displacing existing populations and building new ones. It is a world where folklore can quickly become fact and an entire family of criminals can slip through a community's fingers, only to reappear in

the most unexpected of places.

An account of a brutal triple homicide in an exclusive neighborhood in Depression-era New York draws on archival records to profile the killer, a brilliant but deeply disturbed young sculptor, while documenting the nationwide manhunt, tabloid scandals and courtroom dramas surrounding the case. 20,000 first printing.
