Science and technology studies, cultural anthropology and cultural studies deal with the complex relations between material, symbolic, technical and political practices. In a Deleuzian approach these relations are seen as produced in heterogeneous assemblages, moving across distinctions such as the human and non-human or the material and ideal. This volume outlines a Deleuzian approach to analyzing science, culture and politics.

A novelty to the international market both in concept and realization, this pocket atlas allows the reader to both effectively learn and quickly reference ear acupuncture points. Clear, simple images accompany concise and "to-the-point" texts creating an educational tool for the localization of ear acupuncture points. The resourcefulness of the book is increased by the inclusion of the projection of the body meridians onto the auricle according to Bahr. Besides, "prescriptions" of point combinations according to some indications are included. The reader will profit from the extensive international teaching experience of Beate Strittmatter. Through her former teacher, Frank Bahr, who cooperated directly with Dr.Paul Nogier, she stands in the direct tradition of the founder of Western auriculotherapy.

With amazing low-light capabilities, incredible definition, intelligent autofocus and a host of other features, digital cameras have now become so powerful that they have left their users behind. Most photographers can take competent shots in a range of conditions, or fix imperfect exposures in Photoshop or Lightroom, but very few have the skill to push their cameras to the limit and capture the perfect shot, under all conditions, with no post-processing required. In Camera is the perfect way to take your photography to that level; to master your camera, understand light, exposure and composition, and make amazing photographs, whatever your camera, without cheating after the event. One hundred of Gordon's beautiful photos are given with his own expert commentary; full settings and camera details are included, and a host of tips and tricks let photographers of any level

learn something from every example. The shots are taken with a wide range of cameras, and the emphasis is on getting results by improving your own skills, not wasting money on expensive equipment.
