The explosive sequel to the bestselling PATHFINDER. For the first time ever an elite British operator tells the gruelling story of his selection into the Pathfinders - Britain's secret soldiers. Pathfinder selection is a brutal physical and psychological trial lasting many weeks. It rivals that of the SAS and takes place over the same spine-crushing terrain, in the rain-and-snow-lashed wastes of the Welsh Mountains. For two decades no one has been able to relate the extraordinary trials of British elite forces selection - until now. Captain David Blakeley goes on from completing selection to serve with the Pathfinders in Afghanistan post 9/11, where he had a gun held to his head by Al Qaeda fighters. From there he deploys to Iraq, on a series of dramatic behind- enemy-lines missions - wherein he and his tiny elite patrol are outnumbered,

Few of the great stories of medicine are as palpably dramatic as the invention of open-heart surgery, yet, until now, no journalist has ever brought all of the thrilling specifics of this triumph to life. This is the story of the surgeon many call the father of open-heart surgery, Dr. C. Walton Lillehei, who, along with colleagues at University Hospital in Minneapolis and a small band of pioneers elsewhere, accomplished what many experts considered to be an impossible feat: He opened the heart, repaired fatal defects, and made the miraculous routine. Acclaimed author G. Wayne Miller draws on archival research and exclusive interviews with Lillehei and legendary pioneers such as Michael DeBakey and Christiaan Barnard, taking readers into the lives of these doctors and their patients as they progress toward their landmark achievement. In the tradition of works by Richard Rhodes and Tracy Kidder, *King of Hearts* tells the story of an important and gripping piece of forgotten science history.

Nine men. 2,000 enemies. No back-up. No air support. No rescue. No chance... First in - the official motto of one of the British Army's smallest and most secretive units, 16 Air Assault Brigade's Pathfinder Platoon. Unofficially, they are the bastard son of the SAS. And like their counterparts in Hereford, the job of the Pathfinders is to operate unseen and undetected deep behind enemy lines. When British forces deployed to Iraq in 2003, Captain David Blakeley was given command of a reconnaissance mission of such critical importance that it could change the course of the war. It's the story of nine men, operating alone and unsupported, fifty miles ahead of a US Recon Marine advance and head straight into a hornets nest, teeming with

thousands of heavily-armed enemy forces. This is the first account of that extraordinary mission - abandoned by coalition command, left with no option but to fight their way out of the enemy's backyard. And it provides a gripping insight into the Pathfinders themselves, a shadowy unit, just forty-five men strong, that plies its trade from the skies. Trained to parachute in to enemy territory far beyond the forward edge of battle - freefalling from high altitude breathing bottled oxygen and employing the latest skydiving technology - the PF are unique. Because of new rules introduced since the publication of Bravo Two Zero, there have been no first-hand accounts of British Special Forces waging modern-day warfare for nearly a decade. And no member of the Pathfinders has ever told their story before. Until now. Pathfinder is the only first-hand account of a UKSF mission to emerge for nearly a generation. And it could be the last.

It takes a tough mindset to be a successful sniper, to be able to dig in for days on your own as you wait for your target, to stay calm on a battlefield when you yourself have become the target the enemy most want to take out. Craig Harrison has what it takes and in November 2009 in

Afghanistan, under intense pressure, he saved the lives of his comrades with the longest confirmed sniper kill - 2,475 meters. In this unflinching autobiography, Craig catapults us into the heat of the action as he describes his active service in the Balkans, Iraq and Afghanistan, and gives heart-stopping accounts of his sniper ops as he fought for his life on the rooftops of Basra and the barren hills of Helmand province. Craig was blown up by an IED in Afghanistan and left battling severe PTSD. After his identity was revealed in the press he also had to cope with al Qaeda threats against him and his family. For Craig, the price of heroism has been devastatingly high. Powerful and compelling, *The Longest Kill* is a must-read for fans of military memoirs.

Life's not perfect, but with a fly girlfriend and a cousin who always has his back, Mav's got everything under control. Until, that is, Maverick finds out he's a father. Suddenly he has a baby, Seven, who depends on him for everything. But it's not so easy to sling dope, finish school, and raise a child. So when he's offered the chance to go straight, he takes it. In a world where he's expected to amount to nothing, maybe Mav can prove he's different. When King Lord blood runs through your veins, though, you can't just walk away.
