PREFACE. THE
Author of this very
practical treatise
on Scotch Loch -
Fishing desires
clearly that it may
be of use to all who

had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities

have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between

himself and the angling community in general. This section is

interleaved with blank sheets for the readers notes.

The Author need hardly say that any suggestions

addressed to the case of the publishers, will meet with

consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate

performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us

out when me say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is depend-ent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all

order but
experience has
taught most of us
that the good days
are in the minority,
and that, as is the
case with our rapid
running streams,
-such as many of
our northern
streams are, -the
water is either too
large or too small,
unless, as

previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the

bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using

and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where

there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good

same argument
holds good as to
