The world is shocked by the Nobel Prize Massacres. The lone survivor is rushed to surgery where time splits into two different dimensions, one where he lives and one where he dies. Brian's Dimension Brian Field is rushed back to the United States under government protection. At Nellis AFB he is held practically as a prisoner while the military forces him to work on weapons technology. After two years he escapes with the help of the FBI and creates Field Corporation. Field Corp used technology developed by Brian to fight terrorism and prepare to fight World War III, which is rapidly overtaking the entire planet. Sandy's DimensionSandy Williams inherits Brian's research and discovers a shocking truth. World War III was coming and no one left alive could stop it. The research also said that no one would survive unless Sandy followed Brian's instructions precisely. The plan leads Sandy to Yale then to an isolated spot in northern Canada where she creates a colony designed to allow humanity to survive. But their survival was questionable, even using Brian's greatest secret.
