Oracle Application Framework Personalization Guide

Overview OA Framework includes the OA Personalization Framework which allows you to personalize an Oracle E-Business Suite application page without modifying any underlying code. Personalizing the appearance of or the data displayed in an OA Framework-based page is easy and straightforward.

Oracle Application Framework Personalization Guide

To construct a fully configurable page, use OA Extension, as described in the Oracle Application Framework Developer's Guide. Note: If a page contains flexible layout and flexible content created from the personalization Create Item page, you get the Page Hierarchy Personalization page UI when you personalize the page.

Oracle Application Framework Personalization Guide

Welcome to Release 12.2 of the Oracle Application Framework Personalization Guide. This guide assumes you have a working knowledge of the following: The principles and customary practices of your business area. Computer desktop application usage and terminology. This documentation assumes familiarity with the Oracle E-Business Suite.

Oracle Application Framework Personalization Guide

OA Personalization Framework uses custom style sheets (.xss files) to specify and manage the visual styles of the Look-and-Feel of applications built with OA Framework. One of the goals of custom style sheets is to allow presentation styles, such as fonts and colors, to be separated from the HTML content to which the styles are applied.

Oracle Application Framework Personalization Guide

Since you can only add new items to an OA Framework application page at the Admin-level, you need to first enable Admin-Level personalizations for your application by setting the Personalize Self-Service Defn (FND_CUSTOM_OA_DEFINITION) profile option to Yes.
