and xylenes. Ethylene, propylene, and butadiene, along with butylenes, are collectively called olefins, which belong to a class of unsaturated aliphatic hydrocarbons having the general formula C_nH_{2n} .

Read PDF Petrochemical Industry In Nigeria A Performance Appraisal

This is a scrupulous account of the petroleum industry from 1906 to the present. The story traces development before the discovery of oil in Oloibiri and proceeds to offer comprehensive account of various legislative instruments that were adopted in the development process. The Nigerian Content Law, the gas flaring difficulties and the issue of sabotage are amply dealt with. The book has several media reports to spotlight the heavy corruption ravaging the industry and closes with the attempted subsidy removal by the Jonathan administration. The author ends with a philosophical rhetoric "as if there is no future", calling into question the role of politics and

Read PDF Petrochemical Industry In Nigeria A Performance Appraisal

politicians in the misfortune of Nigeria's oil and gas sector. The application of legislation and regulation to the practice of oil and gas is a consistent theme permeating through the book, giving it not only a solid academic emphasis to the readers, but also a strong orientation towards policy. The book is well positioned to address the technical and commercial issues of the Nigerian's oil and gas sector which should be familiar to oil company managements and experts.

Read PDF Petrochemical Industry In Nigeria A Performance Appraisal

This book, which has twenty chapters, is a collection of essays in honour of Honourable Justice (Mrs) Kate Abiri, Chief Judge of Bayelsa State of Nigeria who has contributed immensely to the rule of law and advancement in the Niger Delta area in particular where the petroleum industry has wrought great devastation in various forms. The law and the regulatory framework governing oil and gas operations in Nigeria are subjected to critical examination, alongside legal challenges in the path of
