Normally, three subjects (and not more than four) are taken at higher level (HL), and the others are taken at standard level (SL).

Physics guide

What's on the A Level Physics Curriculum? Not all schools follow the same curriculum, it can differ depending on where you are so it's best to check the specifications from your board's website. Having said that, the core topics remain much the same. At this stage your physics knowledge will already be pretty advanced. A level builds on the knowledge you gained at GCSE and continues further into concepts you already know as well as teaching you new ones.

International Baccalaureate Diploma Programme Subject Brief

General Physics 1 Teaching Guide. Earth Science is a Core Subject taken in the first semester of Grade 11. This learning area is designed to provide a general background for the understanding of the Earth on a planetary scale. It presents the history of the Earth through geologic time. It discusses the Earth's structure and composition, the processes that occur beneath and on the Earth's surface, as well as issues, concerns, and problems pertaining to Earth's resources.

General Physics 1: Senior High School SHS Teaching Guide ...

GCSE Physics is part of our science suite, developed with teachers to inspire and challenge students of all abilities and aspirations. The content is presented in an order that tells a coherent and logical story through physics, although teachers are free to teach the content in the order that best suits their students.
