Offers practical advice for achieving shared governance in higher education. For those seeking a way to change opinions of shared governance from pointless and unlikely to possible and intriguing, *Shared Governance in Higher Education, Volume 1* will trigger meaningful conversations by offering valuable new perspectives. Experienced governance members, the contributors provide practical insights for everyone involved in academic governance and illuminate the subtle aspects of governance that make the difference between success or failure. Each chapter takes a different view of governing within institutions of higher education and explores topics such as engaging all stakeholders (including students) in shared governance; building on the benefits of a large, complex system; and bringing together pressing current needs with realistic strategic planning. Several in-depth descriptions of academic challenges, and the many roles of governance in addressing them, are thoughtfully explored. The contributors look both deeply and broadly, moving beyond platitudes. The result is a volume that will appeal to those beginning their terms of service as governance members or transitioning into leadership positions, as well as those looking for ways to assist others via governance symposia or conferences, and that will enable readers to shape their

involvement in shared governance in unique new ways.

Credit management has always been one of the principal sources of income for commercial banks. Therefore, strategic credit management is vital to cash flow as it helps in minimizing the likelihood of bad debts. The present text, supported with flow diagrams, data and bank formats, wherever necessary, explains the legal requirements for disbursements and controlling of different types of credit. It also guides readers on step-by-step procedures of bank credit to enable them to form a clear understanding. Besides dealing with the theory and conceptual terms, the book incorporates the latest developments in the field of bank credit. It imparts knowledge of appraisal system of credit applications/proposals and their post-sanction monitoring, credit policy, types of loans and advance facilities granted by banks in India, and analysis of borrowers with particular reference to their legal capacity. It helps in developing skills for identifying, measuring and mitigating risks associated with lending. The book gives various regulatory guidelines pertaining to real estate financing and includes separate chapters devoted to agriculture finance, lending to small-, medium- and large-scale industry, and import and export financing. The book is aimed at postgraduate students of management and commerce. The text will also be of great value to practising credit managers, finance managers and accountants.
