The quantum mind or  
quantum

consciousness is a  
group of hypotheses  
proposing that  
classical mechanics  
cannot explain  
consciousness. It  
posits that quantum-  
mechanical  
phenomena, such as  
entanglement and

# Read Free Quantum Fields

of superposition, may play an important part in the brain's function and could explain consciousness.

Assertions that consciousness is somehow quantum-mechanical can overlap with quantum mysticism, a pseudoscientific movement that
