fulfilment, and of course his tragic contraction of a then killer disease in the mid-1980s. Woven throughout Freddie's life is the shocking story of how the HIV virus came to hold the world in its grip, was cruelly labelled 'The Gay Plague' and the unwitting few who indirectly infected thousands of men, women and children - Freddie Mercury himself being one of the most famous. The death of this vibrant and spectacularly talented rock star, shook the world of medicine as well as the world of music. Richard stands alone in pop history. Coming of age in 1950s London, he began his music career at Soho's legendary 2i's Cafe, and now he's approaching his 80th birthday with record sales of over 250m and counting. Cliff Richard was a pioneer, forging the way for British rock 'n' roll with his unique sound. The original British teen idol, his incredible story takes us into the studio of TV's first pop show Oh Boy!, through 40 years of Top of the Pops, and playing live up and down the country and across the world, with a constant backdrop of screaming fans. Cliff looks back on his humble upbringing, and how

he went on to fulfil his wildest dreams by becoming a pop star and even a film star. He talks about finding Christianity, reflects on the ups and downs of life in the public eye, and reveals how the false allegations against him changed his life forever. He's seen era-defining pop stars come and go, and he's still making new music, with a new project to be released this year. As a teenage Elvis-fan in Cheshunt, this may have seem a distant dream. Here's his story of how he made it all happen.
