Includes Part 1, Number 2: Books and Pamphlets, Including Serials and Contributions to Periodicals July - December)

This full-color laboratory manual is designed for instructors who teach a two-semester introductory anatomy and physiology course, but do not require the detail or full range of laboratory exercises found in Marieb's best-selling Human Anatomy & Physiology Laboratory Manuals (Cat, Fetal Pig,

Access Free Review Sheet 23 Anatomy Of The Respiratory System Answers

and Main versions). While this lab manual can be used with any two-semester text, it will be most effectively used with Marieb's Anatomy & Physiology . Instructors will find 27 concise, activity-based lab exercises that explore basic concepts in anatomy and physiology. For instructors who wish their students to have experience using a microscope, a complete exercise on its use and care can be found in Appendix A. Each lab exercise is presented with learning objectives, cogent summaries of key concepts, and meaningful activities that build students' observational and laboratory skills.
