SAS Visual Statistics is an add-on for SAS Visual Analytics that allows you to develop and test models using the in-memory capabilities of SAS LASR Analytic Server. SAS Analytics Visual Explorer (the explorer) allows you to explore, investigate, and visualize big data sources to discover relevant patterns. SAS Visual Estatistics extends these capabilities to create, test, and compare models based on the patterns discovered in the explorer. SAS Visual Estatistics can export the programming code, before or after performing the model comparison, for use with other SAS products and to put the model into production. SAS High-performance Analytics uses large volumes of data to perform data mining tasks such as pattern discovery, prediction and other typical mining tasks. It allows predictive models to be developed from whole data, not just subsets, so accurate insights can be obtained in minutes or seconds. The use of sophisticated analytics, the ability to work with large numbers of variables, frequent modelling iterations and other advanced features provide competitive advantages. With SAS In-Memory Statistics for Hadoop, is possible to work with rapid interactive analysis, statistical algorithms and machine learning techniques, random decision forests, descriptive statistics, analytical data preparation and Interactive in-memory programming.

This book presents the work possibilities that SAS offers in the modern sector of big data. The most important tools of SAS are presented for processing and analyzing large volumes of data in an orderly manner. In turn, these tools allow also extract the knowledge contained in the data. SAS uses multicore technologies to deliver increased processing capabilities through high-performance, in-database and in-memory analytics resulting in greater insights more quickly from big data and streaming data. . SAS incorporated Hadoop into their applications (SAS Base, SAS Data Integration, Sas Enterpris Guide, SAS Enterprise Miner, ...). Same SAS applications works in-memory on Hadoop (In-memory Statistics, SAS Visual Analytics and SAS Visual Statistics). This book presents the SAS tools for work in big data analytics.
