DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward

completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last.

Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Half-African, half-Indian and beautiful, Tandia is just a teenager when she is brutally attacked and violated by the South African police. Desperately afraid and consumed by hatred for the white man, Tandia seeks refuge in a brothel deep in the veld. There she learns to use her brilliant mind and extraordinary looks as weapons for the battles that lie ahead: she trains as a terrorist. But then Tandia meets a man with a past as strange as her own: Peekay, an Oxford undergraduate who is also the challenger for the world welterweight boxing championship - and a white man. And in a land where mixed relationships are outlawed, their growing love can only have the most explosive consequences.

Appropriate for all basic-to-intermediate level courses in Visual Basic 2008 programming. Created by world-renowned programming instructors Paul and Harvey Deitel, Visual Basic 2008 How to Program, Fourth Edition introduces all facets of the Visual Basic 2008 language hands-on, through hundreds of working programs. This book has been thoroughly updated to reflect the major innovations Microsoft has incorporated in Visual Basic 2008 and .NET 3.5; all discussions and sample code have been carefully audited against the newest Visual Basic language specification. The many new platform features covered in depth in this edition include: LINQ data queries, Windows Presentation Foundation (WPF), ASP.NET Ajax and the Microsoft Ajax Library, Silverlight-based rich Internet application development, and creating Web services with Windows Communication Foundation (WCF). New language features introduced in this edition: object anonymous types, object initializers, implicitly typed local variables and arrays, delegates, lambda expressions, and extension methods. Students begin by getting comfortable with the free Visual Basic Express 2008 IDE and basic VB syntax included on the CD. Next, they build their skills one step at a time, mastering control structures, classes, objects, methods, variables, arrays, and the core techniques of object-oriented programming. With this strong foundation in place, the Deitels introduce more sophisticated techniques, including inheritance, polymorphism, exception handling, strings, GUI's, data structures, generics, and collections. Throughout, the authors show developers how to make the most of

Microsoft's Visual Studio tools. A series of appendices provide essential programming reference material on topics ranging from number systems to the Visual Studio Debugger, UML 2 to Unicode and ASCII.

Real French home cooking with all the recipes from Rick's new BBC Two series. Over fifty years ago Rick Stein first set foot in France. Now, he returns to the food and cooking he loves the most ... and makes us fall in love with French food all over again. Rick's meandering quest through the byways and back roads of rural France sees him pick up inspiration from Normandy to Provence. With characteristic passion and joie de vivre, Rick serves up incredible recipes: chicken stuffed with mushrooms and Comté, grilled bream with aioli from the Languedoc coast, a duck liver parfait bursting with flavour, and a recipe for the most perfect raspberry tart plus much, much more. Simple fare, wonderful ingredients, all perfectly assembled; Rick finds the true essence of a food so universally loved, and far easier to recreate than you think.

A National Book Award-winning author's "moving" novel about "the emotional costs of mental illness, especially on teens forced to parent their own parents" (Booklist, starred review). His mother has died. His father is going crazy. For fifteen-year-old Jason, the only relief as he tries to hold things together is the group of imaginary friends who offer guidance as he tries not to draw attention to his father's deteriorating condition—or to himself. But between the traumas of his childhood and the squalor and stress he's dealing with right now, Jason's

attempts to remain invisible may not be enough. To find a solution to this very real problem, he just might have to reach out to some very real people . . . In this compelling story by the author of *Dancing on the Edge*, Han Nolan “balances weighty subject matter with humor, offering an intelligent portrayal of a boy’s slow release of burdens too heavy to carry alone” (Publishers Weekly).
