AN INSTANT NEW YORK TIMES BESTSELLER The twisty new thriller from the New York Times bestselling author of The Couple Next Door and A Stranger in the House A weekend retreat at a cozy mountain lodge is supposed to be the perfect getaway ... but when the storm hits, no one is getting away It's winter in the Catskills and Mitchell's Inn, nestled deep in the woods, is the perfect setting for a relaxing--maybe even romantic--weekend away. It boasts spacious old rooms with huge woodburning fireplaces, a well-stocked wine cellar, and opportunities for cross-country skiing, snowshoeing, or just curling up with a good murder mystery. So when the weather takes a turn for the worse, and a blizzard cuts off the electricity--and all contact with the outside world--the guests settle in and try to make the best of it. Soon, though, one of the guests turns up dead--it looks like an accident. But when a second guest dies, they start to panic. Within the snowed-in paradise, something--or someone--is picking off the guests one by one. And there's nothing they can do but hunker down and hope they can survive the storm--and one another.

The first historical heroic epic authored by a woman, Scanderbeide recounts the exploits of fifteenth-century Albanian warrior-prince George Scanderbeg and his war of resistance against the Ottoman sultanate. Filled with scenes of intense and suspenseful battles contrasted with romantic episodes, Scanderbeide combines the action and fantasy characteristic of the genre with analysis of its characters' motivations. In selecting a military campaign as her material and epic poetry as her medium, Margherita Sarrocchi (1567--1617) not only engages in the masculine subjects of political conflict and warfare but also tackles a genre that was, until that point, the sole purview of men. First published posthumously in 1623, Scanderbeide reemerges here in an adroit English prose translation that maintains the suspense of the original text and gives ample context to its rich cultural implications.

"Looking for your next big YA fantasy series? We've got our eye on this stylish blockbuster." --Entertainment Weekly Project Runway meets Mulan in this sweeping fantasy about a young girl who poses as a boy to compete for the role of imperial tailor and embarks on an impossible journey to sew three magic dresses from the sun, the moon, and the stars. Maia Tamarin dreams of becoming the greatest tailor in the land, but as a girl, the best she can hope for is to marry well. When a royal messenger summons her ailing father, once a tailor of renown, to court, Maia poses as a boy and takes his place. She knows her life is forfeit if her secret is discovered, but she'll take that risk to achieve her dream and save her family from ruin. There's just one catch: Maia is one of twelve tailors vying for the job. Backstabbing and lies run rampant as the tailors compete in challenges to prove their artistry and skill. Maia's task is further complicated when she draws the attention of the court magician, Edan, whose piercing eyes seem to see straight through her disguise. And nothing can prepare her for the final challenge: to sew three magic gowns for the emperor's reluctant bride-to-be, from the laughter of the sun, the tears of the moon, and the blood of stars. With this impossible task before her, she embarks on a journey to the far reaches of the kingdom, seeking the sun, the moon, and the stars and finding more than she ever could have imagined. Steeped in Chinese culture, sizzling with forbidden romance, and shimmering with magic, this young adult fantasy is pitch-perfect for fans of Sarah J. Maas or Ren e Ahdieh. "Spin the Dawn is proof that casting a wider net not only gives us a fresh story that feels unlike everything else on the shelves beside it but also allows for richer and more nuanced storytelling." --NPR "All the cutthroat competition of a runway fashion reality show and the thrilling exploits of an epic quest ... a stunning tapestry of adventure." --The Washington Post "What an amazing creation Every time I thought I knew where it was going, I was wrong. This is a white-knuckle read." --Tamora Pierce, #1 New York Times bestselling author of Tempests and Slaughter

Deliberative democracy is now an influential approach to the study of democracy and political behaviour. Its key proposition is that, in politics, it is not only power that counts, but good discussions and arguments too. This book examines the interplay between the normative and empirical aspects of the deliberative model of democracy. Jürg Steiner presents the main normative controversies in the literature on deliberation, including self-interest, civility and truthfulness. He then summarizes the empirical literature on deliberation and proposes methods by which the level of deliberation can be measured rather than just assumed. Steiner's empirical research is based in the work of various research groups, including experiments with ordinary citizens in the deeply divided societies of Colombia, Bosnia-Herzegovina and Belgium, as well as Finland and the European Union. Steiner draws normative implications from a combination of both normative controversies and empirical findings.

Kurt Behrendt in this book for the first time and convincingly offers a description of the development of 2nd century B.C.E. to 8th century C.E. Buddhist sacred centers in ancient Gandhara, today northwest Pakistan.

Pitching prodigy Michael Arroyo is on the run from social services after being banned from playing Little League baseball because rival coaches doubt he is only twelve years old and he has no parents to offer them proof. Reprint.

This murder story features a Rhodesian farmer's wife and her houseboy.

Kenneth Louden and Kenneth Lambert's new edition of PROGRAMMING LANGUAGES: PRINCIPLES AND PRACTICE, 3E gives advanced undergraduate students an overview of programming languages through general principles combined with details about many modern languages. Major languages used in this edition include C, C++, Smalltalk, Java, Ada, ML, Haskell, Scheme, and Prolog; many other languages are discussed more briefly. The text also contains extensive coverage of implementation issues, the theoretical foundations of programming languages, and a large number of exercises, making it the perfect bridge to compiler courses and to the theoretical study of programming languages. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Unique Feature Of The Series Which Were The Rich Range Of Statement-Sums Has Been Reinforced To Help Children Master Computing Skill And Concept-Learning. Each Book Now Contains Additional Of Worked Out Problems, Exercises And Graded Revision Tests.

The Iron Curtain concealed from western eyes a vital group of national and regional writers. Marked by not only geographical proximity but also by the shared experience of communism and its collapse, the countries of Eastern Europe -- Poland, Hungary, Albania, Romania, Bulgaria, and the former states of Yugoslavia, Czechoslovakia, and East Germany -- share literatures that reveal many common themes when examined together. Compiled by a leading scholar, the guide includes an overview of literary trends in historical context; a listing of some 700 authors by country; and an A-to-Z section of articles on the most influential writers.
