The Scania DC12 15 is a one off variant which uses the SCR Technology system and not the EGR, a very rare availability on the Used Market. This engine is from a 2012 R420 and supersedes the DC12 14 without EGR and was released alongside the DT12 series with compound turbo and EGR. This is a single turbo SCR 420hp unit.

Scania DC12 15 Engine output: 420, Cylinders: 6 cyl., Emission class: Euro 5, Other information: SCANIA R420 DC12 15 (SCR VERSION) Not to be confused with EGR engine - this is a rare version which was made for the EUR5 R420 alongside th. Engines 2012 600 km United Kingdom, gb, Dudley

OUR CULTURE HAS BECOME OBSESSED WITH HUSTLING. As we struggle to keep up in a knowledge economy that never sleeps, we arm ourselves with life hacks, to-do lists, and an inbox-zero mentality, grasping at anything that will help us work faster, push harder, and produce more. There ' s just one problem: most of these solutions are making things worse. Creativity isn ' t produced on an assembly line, and endless hustle is ruining our mental and physical health while subtracting from our creative performance. Productivity and Creativity are not compatible; we are stuck between them, and like the opposite poles of a magnet, they are tearing us apart. When we ' re told to sleep more, meditate, and slow down, we nod our heads in agreement, yet seem incapable of applying this advice in our own lives. Why do we act against our creative best interests? WE HAVE FORGOTTEN HOW TO FLOAT. The answer lies in our history, culture, and biology. Instead of focusing on how we work, we must understand why we work—why we believe that what we do determines who we are. Hustle and Float explores how our work culture creates contradictions between what we think we want and what we actually need, and points the way to a more humane, more sustainable, and, yes, more creative, way of working and living.

Seeing is Understanding. The first VISUAL guide to marine diesel systems on recreational boats. Step-by-step instructions in clear, simple drawings explain how to maintain, winterize and recommission all parts of the system - fuel deck fill - engine - batteries - transmission - stern gland - propeller. Book one of a new series. Canadian author is a sailor and marine mechanic cruising aboard his 36-foot steel-hulled Chevrier sloop. Illustrations: 300+ drawings Pages: 222 pages Published: 2017 Format: softcover Category: Inboards, Gas & Diesel

This book explores how policies targeting public research institutions, such as universities, contribute to the appropriation of biotechnology through national innovation systems. Around the world, biotechnology has become a driving force for dramatic change in systems and policies intended to spur innovation. The leading contributors expertly construct a detailed picture of policy approaches that support biotechnology and how such approaches work under different economic and social conditions. They also provide an insight into the role of universities in this process. Researchers, academics, students, policy advisors, decision-makers and other professionals involved, and working in, the fields of biotechnology, innovation systems, higher education and development will find this book an invaluable resource.
