Seven Bad Ideas: How Mainstream Economists Have Damaged ...

The "seven bad ideas" refer to premises of the predominant free market-oriented economic policies today. The seven have considerable overlap. It might be an exaggeration to say that The author's analysis is within the boundaries of what he believes would best moderate economic bumps, crashes and public discontent within the current economic system.

Seven Bad Ideas: How Mainstream Economists Have Damaged ...

From the Freidmanites' horror at the prospect of government intervention flowed other bad ideas: that "supply creates its own demand" and economies will self-adjust; that government is useful only for correcting occasional market failures; that targeting inflation is all that really matters; that markets are highly rational, unsusceptible to fashion or speculative bubbles; that globalization will somehow triumph, and free trade will lift all boats.

Seven Bad Ideas: How Mainstream Economists Have Damaged ...

Madrick atomizes seven of the greatest false idols of modern economic theory, illustrating how these ideas have been damaging markets, infrastructure, and individual livelihoods for years, causing hundreds of billions of dollars of wasted investment, financial crisis after financial crisis, poor and unequal public education, primitive public transportation, gross inequality of income and wealth and stagnating wages, and uncontrolled military spending.
