User Guide system to this current state, either from within Linux Mint, or by launching Timeshift from a live Mint session (live DVD or live USB). To create a system snapshot: •Launch Timeshift with Menu ? Administration ? Timeshift. •Follow the wizard to select a destination for your snapshots.

User Guide

This guide was created as an overview of the Linux Operating System, geared toward new users as an exploration tour and getting started guide, with exercises at the end of each chapter. For more advanced trainees it can be a desktop reference, and a collection of the base knowledge needed to proceed with system and network administration.

The Linux Documentation Project: Guides

Linux Mint can be thought of as filling the same role as Microsoft's Windows, Apple's Mac OS, and the free BSD OS. Linux Mint is also designed to work in conjunction with other operating systems (including those listed above), and can automatically set up a “dual boot” or “multi-boot” environment (where the user is prompted as to which
