With amazing low-light capabilities, incredible definition, intelligent autofocus and a host of other features, digital cameras have now become so powerful that they have left their users behind. Most photographers can take competent shots in a range of conditions, or fix imperfect exposures in Photoshop or Lightroom, but very few have the skill to push their cameras to the limit and capture the perfect shot, under all conditions, with no post-processing required. In Camera is the perfect way to take your photography to that level; to master your camera, understand light, exposure and composition, and make amazing photographs, whatever your camera, without cheating after the event. One hundred of Gordon's beautiful photos are given with his own expert commentary; full settings and camera details are included, and a host of tips and tricks let photographers of any level learn something from every example. The shots are taken with a wide range of cameras, and the emphasis is on getting results by improving your own skills, not wasting money on expensive equipment.

National Book Award winning author Pete Hautman lets us in on the secret. Lita is the writer. Adam is the entrepreneur. They are JUST FRIENDS. So Adam would never sell copies of a self-help book before he'd even written it. And Lita would never try to break up Adam's relationship with Blair, the skankiest girl at school. They'd never sabotage their friends Emily and Dennis. Lita would never date a guy related to a girl she can't stand. They'd never steal each other's blog posts. And Adam would never end up in a fist fight with Lita's boyfriend. Nope, never. Adam and Lita might never agree on what happened, but in this hilarious story from Pete Hautman, they manage to give the world a little more insight into what boys and girls are really looking for.

A housewife takes up bodybuilding and sees radical changes to her physique - which her workaholic husband fails to notice. A boy waits at a bus stop, mocking businessmen struggling to keep their umbrellas open in a typhoon - until an old man shows him that they hold the secret to flying. A woman working in a clothing boutique waits endlessly on a customer who won't come out of the fitting room - and who may or may not be human. A newlywed notices that her husband's features are beginning to slide around his face - to match her own. In these eleven stories, the individuals who lift the curtains of their orderly homes and workplaces are confronted with the bizarre, the grotesque, the fantastic, the alien - and, through it, find a way to liberation.
