Forbidden love is the hardest to forget... Blake "Murphy" O'Callaghan, Road Captain of the Lost Kings MC, has the world by the balls. Money. Women. The wide-open road. It's all his, everything he wants...except the one girl he loves, the one girl who's off limits. His best friend's little sister, Heidi. Abandoned by her mother when she was only eight, Heidi Whelan's familiar with heartbreak. Especially the heartbreak of falling in love with her big brother's best friend. When Murphy pushed her away, it broke her heart. Now, on her eighteenth birthday, he claims he loves her? Growing up around the Lost Kings MC, Heidi's witnessed his manwhoring ways. He'll never give that up for her. Besides, he's too late: Heidi's in love with her high-school boyfriend Axel. Axel Ryan loves two things—motorcycles and Heidi. He signed up to be a prospect for the Lost Kings MC because it seemed like a fun way to get closer to her. Now that he's gotten a taste of MC life, he's not so sure this is where he belongs. He's confident Heidi shares his dreams for the future, so even if he chooses another road, their relationship will survive the detour. With more than miles between them, will the deceptions they've lived with for so long be too much to overcome? Can Murphy convince Heidi that the hard roads they've traveled will lead to the most beautiful destination of all, or is he destined to ride the open road alone? A real-life thriller in the vein of *The Devil in the White City*, Kate Winkler Dawson's debut *Death in the Air* is a gripping, historical narrative of a serial killer, an environmental disaster, and an iconic city struggling to regain its footing. London was still recovering from the devastation of World War II when another disaster hit: for five long days in December 1952, a killer smog held the city firmly in its grip and refused to let go. Day became night, mass transit ground to a halt, criminals roamed the streets, and some 12,000 people died from the poisonous air. But in the chaotic aftermath, another killer was stalking the streets, using the fog as a cloak for his crimes. All across London, women were going missing--poor women, forgotten women. Their disappearances caused little alarm, but each of them had one thing in common: they had the misfortune of meeting a quiet, unassuming man, John Reginald Christie, who invited them back to his decrepit Notting Hill flat during that dark winter. They never left. The eventual arrest of the "Beast of Rillington Place" caused a media frenzy: were there more bodies buried in the walls, under the floorboards, in the back garden of this house of horrors? Was it the fog that had caused Christie to suddenly snap? And what role had he played in the notorious double murder that had happened in that same apartment building not three years before--a murder for which another, possibly innocent, man was sent to the gallows? The Great Smog of 1952 remains the deadliest air pollution disaster in world history, and John Reginald Christie is still one of the most unfathomable serial killers of modern times. Journalist Kate Winkler Dawson braids these strands together into a taut, compulsively readable true crime thriller about a man who changed the fate of the death penalty in the UK, and an environmental catastrophe with implications that still echo today.

Based on a true story, *A REVERSAL OF FORTUNE* depicts the struggle of a successful, level-headed lawyer and his new free-spirited, unpredictable wife in adjusting to their recent marriage, coping with their law firm, facing the economic hardships of the current recession, and eventually losing everything. In his clear, conversational style, the author begins his story where his debut novel, *THREE WEEKS IN ITALY*, ended. Although reading his first novel is entirely unnecessary to understand his recent work, the author continues the story of Doug and Gianna Steele after their tumultuous honeymoon in Italy. Returning home to an affluent lifestyle, Gianna decides to join Doug's law firm and eventually experiences a betrayal that leads to disastrous events. The reader will follow the main characters as they desperately attempt to survive through the morass of evictions, sub-prime borrowing, foreclosures, unemployment, bad credit, law suits, and despair. After the devastation, Gianna moves back into her mother's home and Doug ends up in a trailer park. Stripped of their material possessions, they soon discover a hidden treasure in their relationship which leads them to redemption and a new life together.

Developed and adapted by the authors of this book, thematic analysis (TA) is one of the most popular qualitative data analytic techniques in psychology and the social and health sciences. Building on the success of Braun & Clarke's 2006 paper first outlining their approach - which has over 100,000 citations on Google Scholar - this book is the definitive guide to TA, covering: - Contextualisation of TA - Developing themes - Writing TA reports - Reflexive TA It addresses the common questions surrounding TA as well as developments in the field, offering a highly accessible and practical discussion of doing TA situated within a clear understanding of the wider terrain of qualitative research. Virginia Braun is a Professor in the School of Psychology at The University of Auckland, Aotearoa New Zealand. Victoria Clarke is an Associate Professor in Qualitative and Critical Psychology in the Department of Social Sciences at the University of the West of England (UWE), Bristol.

A bestselling, groundbreaking author investigates successful long term marriages, interviewing wives and their uncensored strategies for staying married. America's high divorce rate is well known. But little attention has been paid to the flip side: couples who creatively (sometimes clandestinely) manage to build marriages that are lasting longer than we ever thought possible. What's the secret? To find out, bestselling journalist Iris Krasnow interviewed more than 200 wives whose marriages have survived for 15 to 70 years. They are a diverse cast, yet they share one common and significant trait: They have made bold, sometimes secretive and shocking choices on how to keep their marital vows, "till death do us part," as Krasnow says, "without killing someone first." In raw, candid, titillating stories, Krasnow's cast of wise women give voice to the truth about marriage and the importance of maintaining a strong sense of self apart from the relationship. Some spend summers separately from their partners. Some make time for wine with the girls. One septuagenarian has a recurring date with an old flame from high school. In every case, the marriage operates on many tracks, giving both spouses license to pursue the question "Who am I apart from my marriage?" Krasnow's goal is to give women permission to create their own marriages at any age. Marital bliss is possible, she says, if each partner is blissful apart from the other. A fascinating window on the many faces of modern relationships, *The Secret Lives of Wives* brims with inspiring and daring examples of women who have it both ways: a committed marriage and personal adventures in uncharted territory. For anyone who wants to stay married and stay sane, this is the book to read!

In a land of saffron sunsets and blazing summer heat, an Englishwoman has been found dead, her wrists slit, her body floating in a bathtub of blood and water. But is it suicide or murder? The case falls to Scotland Yard inspector Joe Sandilands, who survived the horror of the Western Front and has endured six sultry months in English-ruled Calcutta. Sandilands is ordered to investigate, and soon discovers that there have been other mysterious deaths, hearkening sinister ties to the present case. Now, as the sovereignty of Britain is in decline and an insurgent India is on the rise, Sandilands must navigate the treacherous corridors of political decorum to bring a cunning killer to justice, knowing the next victim is already marked to die.
