illustrative examples from the Demand for Safe Spaces study. The handbook is intended to train users of development data how to handle data effectively, efficiently, and ethically. In the DIME Analytics Data Handbook, the DIME team has produced an extraordinary public good: a detailed, comprehensive, yet easy-to-read manual for how to manage a data-oriented research project from beginning to end. It offers everything from big-picture guidance on the determinants of high-quality empirical research, to specific practical guidance on how to implement specific workflows—and includes computer code! I think it will prove durably useful to a broad range of researchers in international development and beyond, and I learned new practices that I plan on adopting in my own research

□ Data are the essential ingredient in any research or evaluation project, yet there has been too little attention to standardized practices to ensure high-quality data collection, handling, documentation, and exchange.

Development Research in Practice: The DIME Analytics Data Handbook seeks to fill that gap with practical guidance and tools, grounded in ethics and efficiency, for data management at every stage in a research project.

This excellent resource sets a new standard for the field and is an essential reference for all empirical researchers. □ Ruth E. Levine, PhD, CEO, IDinsight □ Development

The economic literature on international migration interests policymakers as well as academics throughout the social sciences. These volumes, the first of a new subseries in the Handbooks in Economics, describe and analyze scholarship created since the inception of serious attention began in the late 1970s. This literature appears in the general economics journals, in various field journals in economics (especially, but not exclusively, those covering labor market and human resource issues), in interdisciplinary immigration journals, and in papers by economists published in journals associated with history, sociology, political science, demography, and linguistics, among others. Covers a range of topics from

labor market outcomes and fiscal consequences to the effects of international migration on the level and distribution of income – and everything in between. Encompasses a wide range of topics related to migration and is multidisciplinary in some aspects, which is crucial on the topic of migration Appeals to a large community of scholars interested in this topic and for whom no overviews or summaries exist

What guidance does academic research really provide to economic policy development? The critical and analytical surveys in this volume investigate links between policies and outcomes by surveying work from broad macroeconomic policies to interventions in microfinance.

Asserting that there are no universal

correspondences between policies and outcomes, contributors demonstrate instead that only an intense familiarity with the development context and the universe of applicable economic models can generate successful policies. Getting cause-and-effect right is essential for policy design and implementation. With the goal of drawing researchers and policy makers closer, this volume highlights our increasing understanding of ways to combine economic theorizing with careful, thoughtful empirical work. * Presents an accurate, self-contained survey of the current state of the field * Summarizes the most recent discussions, and elucidates new developments * Although original material is also included, the main aim is the provision of comprehensive and

In the last 20 years, the need for a financial expert to act as a witness and consultant to litigating attorneys has grown even more than litigation itself. Twenty years ago, few certified public accountants or economists offered litigation-related services; now, a large number devote much of their practice to this area. To be litigation service practitioners and accountants need to learn or enhance their litigation skills, including the fine points of their roles in trial preparation and testimony presentation, testimony presentation, deposition, direct examination, cross examination, understanding Sarbanes-Oxley rulings, and fraud investigations.
