Few genres of the last 250 years have proved so crucial to the course of music history, or so vital to public musical experience, as the symphony. This Companion offers an accessible guide to the historical, analytical and interpretative issues surrounding this major genre of Western music, discussing an extensive variety of works from the eighteenth century to the present day. The book complements a detailed review of the symphony's history with focused analytical essays from leading scholars on the symphonic music of both mainstream composers, including Haydn, Mozart and Beethoven and lesser-known figures, including Carter, Berio and Maxwell Davies. With chapters on a comprehensive range of topics, from the symphony's origins to the politics of its reception in the twentieth century, this is an

## Publisher Description

Critically examines the career, music and reception of one of the most misunderstood composers.

This Companion provides an up-to-date view of the music of Franz Liszt, its contemporary context and performance practice, written by some of the leading specialists in the field of nineteenth-century music studies. Although a core of Liszt's piano music has always maintained a firm hold on the repertoire, his output was so vast, influential and multi-faceted that scholarship too has taken some time to assimilate his achievement. This book offers students and music lovers some of the latest views in an accessible

form. Katharine Ellis, Alexander Rehding and James Deaville present the biographical and intellectual aspects of Liszt's legacy, Kenneth Hamilton, James Baker and Anna Celenza give a detailed account of Liszt's piano music - including approaches to performance - Monika Hennemann discusses Liszt's Lieder, and Reeves Shulstad and Dolores Pesce survey his orchestral and choral music.

This Companion provides an overview of the composer Anton Bruckner (1824-1896). Sixteen chapters by leading scholars investigate aspects of his life and works and consider the manner in which critical appreciation has changed in the twentieth century. The first section deals with Bruckner's Austrian background, investigating the historical circumstances in which he worked, his upbringing in Upper Austria, and his career in Vienna. A number of misunderstandings are dealt with in the light of recent research. The remainder of the book covers Bruckner's career as church musician and symphonist, with a chapter on the neglected secular vocal music. Religious, aesthetic, formal, harmonic, and instrumental aspects are considered, while one chapter confronts the problem of the editions of the symphonies. Two concluding chapters discuss the symphonies in performance, and the history of Bruckner-reception with particular reference to German Nationalism, the Third Reich and the appropriation of Bruckner by the Nazis.
