A group of young intellectuals living in and around Dulwich in the 1920s become drawn into the sinister events, centred on a local parish church. What at first seems to be a simple case of devil worship, led by a local family, quickly morphs into a much more worrying clash of worlds and dimensions in which knowledge of advanced mathematics proves more valuable than any expertise in the occult.

Some of the tales are creeping terrifying mysteries (the title story, The Dulwich Horror of 1927); others are brooding existential horrors, heavy on mood (The Norwood Builder). A particular favourite of mine was Two Fingers , which successfully critiques modern British society and ambitions while telling an excellent weird-gothic suspense story.
