The Inquisitor's Apprentice on Apple Books

The story focuses on a 13 year old Jewish boy who discovers he has the power to see magic happening and is immediately drafted into the NYPD, as a magical inquisitor's apprentice. The setting is an alternate New York, around the turn of the century, where magic is real, but outlawed.

The Inquisitor's Apprentice on Amazon.com

Apprenticed to the early 20th-century New York Police Department's star Inquisitor when it is discovered that he can see witches, Jewish youth Sacha Kessler teams up with spoiled fellow apprentice Lily Astral to foil a murder plot against Thomas Edison. 35,000 first printing.

UN Peacekeeper Major Catherine Li hides her true identity as an illegal clone, until a perilous mission takes her back to her brutal planet of origin to investigate the death of a renowned scientist, Li's genetic twin, and is forced to rely on Cohen, a seductive artificial intelligence, to save her life. Reprint.

In this stunning follow-up to the critically acclaimed novel Spin State, Chris Moriarty depicts a grim future in which the final frontier may well be extinction. For as far-flung planets are terraformed and Earth ' s age-old conflicts are contracted out to AIs, humanity is losing the only war that counts: the war for survival. Call Arkady a clone with a conscience. Or call him a traitor. A member of the space-faring Syndicates, Arkady has defected to Israel with a hot commodity: a genetic weapon powerful enough to wipe out humanity. But Israel ' s not buying it. They ' re selling it—and Arkady—to the highest bidder. As the auction heats up, the Artificial Life Emancipation Front sends in Major Catherine Li. Already drummed out of the Peacekeepers for " war crimes, " Li has now literally hooked up with an AI who has lived many lifetimes and shunted through many bodies. And while they each have their own definition of victory, together they have only one chance at survival. . . .

Sometimes a ghost of a chance is all you get. Award-winning author Chris Moriarty returns to a dazzling cyber-noir far future in this gritty, high-stakes thriller where the only rule is " Evolve . . . or die. " The Age of Man is ending. The UN ' s sprawling interstellar empire is failing as its quantum teleportation network collapses, turning once-viable colonies into doomed island outposts. Humanity ' s only hope of survival is the Drift: a mysterious region of space where faster-than-light travel—or something far stranger—seems possible. As mercenaries and pirates flock to the Drift, the cold war between the human-led UN and the clone-dominated Syndicates heats up. Whoever controls the Drift will chart the future course of human evolution—and no one wants to be left behind in a universe where the price of failure is extinction. When the AI called Cohen ventures into the Drift, he dies—allegedly by his own hand—and his consciousness is scattered across the cosmos. Some of his ghosts are still self-aware. Some are insane. And one of them hides a secret worth killing for. Enter Major Catherine Li, Cohen ' s human (well, partly human) lover, who embarks on a desperate search to solve the mystery of Cohen ' s death—and put him back together. But Li isn ' t the only one interested in Cohen ' s ghosts. Astrid Avery, a by-the-book UN navy captain, is on the hunt. So is William Llewellyn, a pirate who has one of the ghosts in his head, which is slowly eating him alive. Even the ghosts have their own agendas. And lurking behind them all is a pitiless enemy who will stop at nothing to make sure the dead don ' t walk again. Praise for Ghost Spin " Complexity is the watchword here, of thought, idea, narrative, character and plot. . . . Highly rewarding. " —Kirkus Reviews " Rewarding . . . The adaptations humans make to survive in the hostile environments of other worlds, a galaxy teetering on the edge of singularity . . . are genuinely visionary. " —Publishers Weekly " This stand-alone ' spin-off ' offers a compelling tale of adventure/suspense blended with cybernoir and high-tech sf. " —Library Journal " An excellent read: gripping, fast-paced, provocative and handsome. " —Tor.com " A brilliant mix of space opera, cyberpunk, and just plain great writing. Moriarty ' s work is some of the most impressive in science fiction today. " —SFRevu

" A fabulously imaginative historical fantasy. " —Publishers Weekly, starred review of The Inquisitor ' s Apprentice At the turn of the twentieth century, New York ' s Bowery District becomes the scene of a terrible murder when the Klezmer King gets tried to a crisp by his Electric Tuxedo—on stage! The Inquisitor ' s apprentice, thirteen-year-old Sacha Kessler, tries to help find the killer, but the closer he gets to solving the crime, the more it sounds as if the creature that haunted him in his first adventure is back. Worse still, his own Jewish family is in danger. Sacha has avoided learning magic until now, but as his world falls apart around him, he changes his mind.

In his quest for total domination, Darth Sidious compiled six legendary dark side texts detailing Sith history and philosophy by Sorzus Syn, Darth Malgus, Darth Bane, Mother Talzin, Darth Plagueis, and himself. Together these documents form the Book of Sith. Over the centuries, the texts were passed among Force users who left handwritten notes and annotations in the margins, including Darth Vader, Yoda, Mace Windu, and Luke Skywalker, among others. Collected by acclaimed Star Wars writer Daniel Wallace and embellished by numerous esteemed Star Wars illustrators, this volume introduces new characters and history, and delves deeper into understanding the philosophies and methods behind the dark side of the Force.

Quinn is a curious little girl, always asking Momma "why?" She wants to know everything, and won't stop until she finds the answers! One day Quinn and her mom go to the store, and it starts raining. Why is it raining? Where does the water come from? Why does it fall from clouds? Quinn asks these questions and more as Momma explains the water cycle to the Little Inquisitor, and with every question, Quinn learns more and more about the world around her. Read about curious little Quinn and don't be afraid to ask "why?" - you might learn something amazing!

Includes excerpt from The Smartest Kid in the Universe.

Every kid has heard of Harry Houdini, the famous magician who could escape from handcuffs, jail cells, and locked trunks. But do they know that the ever-ambitious and adventurous Houdini was also a famous movie star and the first pilot to fly a plane in Australia? This well-told biography is full of the details of Houdini's life that kids will really want to know about and illustrated throughout with beautiful black-and-white line drawings. Illustrated by John O'Brien.

Elaine is an orphan girl who has grown up in a world where magical ability brings power. Her limited talent was enough to ensure a magical training but she's very inexperienced and was lucky to get a position working in the Great Library. Now, the Grand Sorcerer - the most powerful magician of them all - is dying, although initially that makes little difference to Elaine; she certainly doesn't have the power to compete for higher status in the Golden City. But all that changes when she triggers a magical trap and ends up with all the knowledge from the Great Library - including forbidden magic that no one is supposed to know - stuffed inside her head. This unwanted gift doesn't give her greater power, but it does give her a better understanding of magic, allowing her to accomplish far more than ever before. It's also terribly dangerous. If the senior wizards find out what has happened to her, they will almost certainly have her killed. The knowledge locked away in the Great Library was meant to remain permanently sealed and letting it out could mean a repeat of the catastrophic Necromantic Wars of five hundred years earlier. Elaine is forced to struggle with the terrors and temptations represented by her newfound knowledge, all the while trying to stay out of sight of those she fears, embodied by the sinister Inquisitor Dread. But a darkly powerful figure has been drawing up a plan to take the power of the Grand Sorcerer for himself; and Elaine, unknowingly, is vital to his scheme. Unless she can unlock the mysteries behind her new knowledge, divine the unfolding plan, and discover the truth about her own origins, there is no hope for those she loves, the Golden City or her entire world.
